Apologies for the delay -- bit of 'sick leave', now panicking, so this will be little more than the agenda, and will put rest in next WVMenews.

**Good news: all of the 2019 WVMs are now up on the [westvan.org](http://westvan.org) website!**

Sunday: 46th Annual Chinese New Yr Parade (largest in Canada); Trudeau also here for the gala.

As mentioned before, the Scene section of the VSun on Thursdays has oodles of things going on; a few usually put in WVM -- no time, zipped by, but it was on B10 on Feb 7. Look at 'em all!

**Calendar and snow info below agenda**, then stmt re cclrs' attendance at stakeholder B-Line mtgs queried for clarification (will follow up). Sop asked about it at the Jan 28 mtg. FWIW found the first 11 minutes of the Jan 28 mtg interesting (B-Line Update; Finance Award; B-Line presentation; Sop's question) The Q was called out of order by Cclr Cameron and the Mayor agreed saying the intro was for notifications only, not debate.

## ☆ Q re Council NOT to attend B-Line Stakeholder mtgs

Reply from Communications Dept:

No. It was simply suggested to Council that it would help community members at stakeholder meetings participate more honestly if they were not being observed by Council at the time. Council agreed that providing a council-free space, the community could discuss among themselves. All input will be provided to Council at the end.

My initial reactions: suggested by whom? at what mtg? Must cclrs abide by the "suggestion"?  
insult to residents and cclrs? "open" democracy?
