Repeating my encouragement in WVM03...

**UPPER LANDS --** Seek out the information, give your opinion.

**Essential:** Keep in mind that the "**Upper Lands**" refers to land both above and below the 1200ft level. If you want the 1200ft level kept (no devt above; protection of environment, etc), for every question clarify above or below before answering. Otherwise the answers can be taken for the whole area, ie devt. See two letters from residents (below).

Some facts: - The cut-off for devt in NV is 1000ft, ours is 1200ft (decided b/c of extra cost for water and snow-clearing)

- It is not true that owners have the right to devp above 1200ft (even if land exchanged)

- Below 1200ft, WV can designate protected areas (park; envmt) without being required to exchange land.

**The next WG is Thurs March 13 at the Srs' Ctr -- hear what they have to say about the surveys, open house, etc**

## == **Vive le CANADA** ==

Good luck for the Paralympic Games March 7 to 16.

## === **from the EDITOR'S DESK** ===

+ **UPPER LANDS** is uppermost in my mind. Pls express your opinions. Read the two letters. I also found it wasn't clear if what was being asked was for the part below 1200ft or above. Several times I warned that it wd be ambiguous or confusing and recommended it be made clear.

+ **OLYMPICS** -- heard an interesting comment. Those who win silver are disappointed not having won gold; those who win bronze are v happy they didn't come fourth!

+ In rush to get this WVM out, apologies for whatever I've missed. Since there isn't another ccl mtg until March 31, there will probably have to be some Headsup/Updates.

## + **PETS!**

They're adorable. Did you know the BC SPCA has a calendar contest?

Make your pet a star with the BC SPCA's annual calendar contest. The popular Calendar Contest **opens on March 18**.

The 13 guardians who raise the most in their fur baby's honour will win a spot for them in our 2015 'I Animals' Calendar. We've found the early birds have a far better chance of winning a spot, so sign up now and you'll get a reminder to register on opening day.

**Contest runs March 18 through April 18, 2014.**

See: [http://support.sPCA.bc.ca/site/TR/Events/AnimalLoversCalendarContest?fr\\_id=1360&pg=tgreeting](http://support.sPCA.bc.ca/site/TR/Events/AnimalLoversCalendarContest?fr_id=1360&pg=tgreeting)

## + **WVM**

b/c not a ccl mtg till March 31, obviously can't put all the activities/mtgs in this newsletter. There will be Headsup notices.

Subscribe to keep up (write subscribewvm@westvan.org)

## **Save a tree.**

Read this on-line or subscribe to the email edition.

Subject: Criticism of materials & questionnaire published by Upper Lands Working Group

[TO: Mayor and Council]

I have been following the Upper Lands Working Group activities and I am very concerned about the highly biased survey questionnaire that was produced by the Working Group and is being circulated now. **I find the survey background information is biased towards promoting support for varying the current 1200ft limit on development so as to allow development higher up the mountain.**

The questionnaire manipulates support for the option of allowing development above the 1200ft level in exchange for lands of higher environmental value below the 1200ft in various ways. At the last Working Group meeting during the public question period I **criticized the questionnaire for not presenting to the public a third option for protecting higher value lands, namely density transfers.** They added a question in response but instead of referring to it as density transfers (which people would understand means moving density from one place to another, not increasing overall density), **they instead asked "Do you support higher densities..." as a means to protect certain lands. They did not explain in the question that this would not mean higher overall density.** Effectively the Working Group poisoned the question for this option. If you ask people do you support higher densities in West Vancouver people's reaction will generally be no. If the question had been asked properly, ie. Do you support density transfers below the 1200ft level in order to protect lands of higher environmental value, it would have been far clearer. People I talked to all agreed that the question was biased and that they **would have been willing to say yes to density transfers but not higher densities overall.**

There are other ways that the Working Groups materials appear to be manipulating the public into supporting development above 1200ft. They **said at the workshops that technology wasn't really there in the 1960s to effectively pump water above 1200ft but they can do so now so the 1200ft restriction is losing its relevance. In fact we had the ability to pump water effectively in the 1960s, but it is an issue of costs.** The Metro water system is mostly a gravity-fed system because the reservoirs are high up which makes it very cheap to deliver water. If, however, you have to move water to an elevation higher than the reservoir the costs go up dramatically the higher you go. It takes a lot of energy to pump water uphill and maintain pressure. **This fact is as relevant today as it was in the 1960s especially since energy prices are going up, not down, so the cost of pumping can go up as electricity prices climb. Furthermore West Vancouver's snow clearing budget would go up dramatically** if we had to maintain subdivisions higher up the mountain. Someone suggested having a special levy on those subdivisions to pay those costs but under our system you can't do that. West Vancouver residents as a whole would have to subsidize the higher costs of maintaining subdivisions above the snow line. In short, the Working Groups presentation wrongly suggests that there is little relevance now to the 1200ft limit on development when in fact the utility and servicing costs would still be much higher.

**Another example of misleading information being presented to support the 1200ft variation is an Environmental "Synthesis" map they produced** that they synthesized out of other sources. I am not questioning the sources but I am **certainly questioning the synthesis that claims an area near the old growth conservancy has no environmental value when it actually is of high conservation value.** The area is shown on a Metro source map as having good environmental values but when the "synthesis" was done it was shown as having no special value. At one of the public Workshops I **asked who did the "synthesis" but the facilitator did not answer the question** even though she was asked again by other members of the public. The Working Group **members in attendance did not answer either.** The concern I have is that this high conservation value area is also being proposed for possible development (1200ft variation area) but is **being misdescribed as being of low value.** The area includes **trees that are up to 1000 years old.** This was an area of old style high grade logging where many trees were left behind. It was not clearcut and burned. As a result it has naturally regenerated and will develop an old growth structure hundreds of years before most logged areas. Also, it is adjacent to pure old growth, such as the Old Growth Conservancy, which means old growth species have a chance to spread into it. I strongly object to the Working Group's synthesis map that indicates this area is not environmentally of high value.

**This whole process seems designed to elicit public support for allowing development above 1200ft. The questions are skewed that way and the material is biased to encourage that outcome.** Yet in spite of this, the public attendees at the three Workshops I attended were overwhelmingly opposed to removing the 1200ft limit. [It is hoped] the Working Group will present those results to you. At least at the workshops the public was able to hear the alternate view, but with the questionnaire, **the bias built into the questions described above will affect the results.** Even I was offended at the thought of answering yes to higher densities when there was no qualification in the question to be for density transfers only. I do not believe the public supports an overall increase in density yet the way that question is worded leaves that option open so it will elicit a negative response.

This issue is one of the most important issues for the future of West Vancouver and I am gravely disappointed that the Working Group has managed the public process in this way. I do commend the facilitator of the Workshops for making the best of it and the public opposition to development over 1200ft certainly became clearly expressed by the public at the workshops as a result. The Working Group however seems to be trying to push the public in the opposite direction and their view should not be allowed to be substituted for the public's.

**> TWO****March 1, 2014**

Mayor Smith, The Council of West Vancouver,

**Re: Upper Lands**

After attending two Open Houses and the Interactive Workshop I have the following concerns regarding the transparency and openness of these Public consultations:

1. Vague language in the Notice to the Public; "West Vancouver is reviewing the bylaws and policies relating to the Upper Lands to determine what lands should be protected, what can be developed, uses of public land and appropriate forms of development", concealed the main and highly controversial aspect of the Upper Lands project.

2. A similar approach could be observed during Open Houses. Furthermore, the facilitator of the workshop rejected the suggestion that the main issue should be presented openly and upfront at the beginning of the meeting, so the boundary of discussed area was clearly defined.

3. **As a result, the very vast majority of speakers, not to say all speakers, were expressing their opinions believing that the discussion is about Upper Lands already zoned for residential and very limited commercial development.**

**Only at the very end of the meeting, when several speakers had already left, it was revealed that actually the discussion was about all Upper Lands in general, including lands above 1200foot elevation.** In other words, the idea to trade/exchange some lots in Lower Lands, which are already zoned but difficult to develop, for flatter and easier to develop areas of Upper Lands above the 1200foot boundary is NOT being presented to the Public in an open and transparent manner. It is rather shielded by talks about housing density, forms of development, uses of the land, and other ambiguities.

It is simply unfair and undemocratic!

Also, the environmental impact of development insurgents into upper areas of the Upper Lands is played down. The argument that only areas of lower environmental sensitivity would be developed and adjacent areas of environmentally higher sensitivity would still be protected is ridiculously simplistic. The only effective method of guarding sensitive areas is by surrounding them with protective green belts of lesser environmental sensitivity. The 1200foot development boundary serves that purpose. Once that guardian is "modified" and less sensitive areas are developed, adjacent areas of high environmental sensitivity would be automatically damaged too... opening doors for even more development in of course environmentally less sensitive areas...

Sincerely, A.L.

**=== UPDATES & INFO ===****+ [WV] VOLUNTEERS WANTED**

Mar 4 -- West Vancouver is committed to seeking the advice of and tapping into the expertise of residents wishing to serve on boards and committees. As community leaders and volunteers, we value your time and have developed a structure to meet your ability to contribute.

Join us for an evening with award-winning author, **Claudia Cornwall**.

"**Curt Lang was a beatnik poet, painter, photographer, beachcomber, boat builder, fisherman, and software entrepreneur**. He was **born in Vancouver in 1937 and died there in 1998**. He and Freddy Douglas were known as the two hippest guys in Vancouver during the late fifties and sixties. **At the World's Edge** is my portrayal of Curt and the wild and crazy scene that swirled around him." [Claudia Cornwall]

"Curt Lang was one of those people who manage to be inside something that is happening before most people really understand its importance. He was there as Vancouver sprouted **an experimental literary scene, an abstract modernist art scene, a documentary photography scene, and an early geekdom inventing something called software for computers**.

"The world that produced Lang was **East Vancouver in the 1940s and 1950s**, a place capable of spawning a teenager who would cross the old Second Narrows Bridge with a friend in search of Malcolm Lowry. It was a time when not only might an East Van boy care who Lowry was, but actually find Lowry and get drunk and argue with him as an act of homage.

"*At the World's Edge* is a detective story in which Cornwall investigates a man, and a kind of life, she deems elemental. The author knew Lang in his later years and she, being a gifted reporter, decided to go back and gather his story in order to retrieve glimpses of a Vancouver that now is all but polished from view." [The Tyee]

Claudia Cornwall, an award-winning freelance writer for over 20 years, has written five books. She has published in The Globe and Mail, Reader's Digest, BC Business, as well as the online magazine Tyee. Claudia grew up in Vancouver and studied philosophy at UBC and the University of Calgary where she earned her doctorate. She is married and has a son and daughter.

#### +++ WV MUSEUM +++ 925 7295 [http://westvancouvermuseum.ca/exhibitions/current\\_exhibition](http://westvancouvermuseum.ca/exhibitions/current_exhibition)

-- **January 10 to March 22 -- Ukiyoe Spectacular Japanese Woodblock Prints from the 1800s**

Over one hundred woodblock prints from a private collection in Japan will be on display at the West Vancouver Museum and the Nikkei National Museum. This is a rare opportunity to see works by Kuniyoshi, Yoshifuji, and Hiroshige, among many other ukiyo-e artists. Curated by ukiyo-e scholar Inagaki Shinichi and West Vancouver Museum's Kiriko

Watanabe, *Ukiyoe Spectacular* reveals compelling images of the supernatural and epic myths, as well as portraits of courageous samurai and historical events.

During the Edo period (1604-1868), the concept of "floating world" indicated the enjoyment of life while it lasted. Ukiyo-e, which literally means "pictures of floating world", dates back over three hundred years and reached its golden age during the Edo. The prints included in this exhibition from the late Edo demonstrate technical virtuosity and culturally rich traditions.

In addition to common ukiyo-e subjects, such as kabuki actors and beautiful women, many images reveal various interpretations of social and political issues. Consumer taste and the censorship imposed by the Tokugawa government at the time played a major role in facilitating new trends in the making of ukiyo-e.

*Princess Takiyasha Calling up a Monstrous Skeleton Spectre at the Haunted Palace at S ma* (c. 1844-48), a triptych by Utagawa Kuniyoshi depicts a giant skeleton conjured by the princess's dark magic looming over two samurai figures. Though this image is dramatic, there are many others in the exhibition that are entertaining.

The more time you spend looking, the more things you discover: the face you are looking at is composed of an assemblage of cats, or a figure's eyes are made of blow fish. This exhibition celebrates the 125<sup>th</sup> anniversary of consular relations between Canada and Japan, and also gives an opportunity for visitors to see the visual and technical sophistication of this unique Japanese art form.

....Excitement is building at the Vancouver Art Gallery as we prepare to open our spring exhibitions. The VAG is the only place you can see these groundbreaking exhibitions, which feature an extensive group of works from the Gallery's permanent collection, displayed with pieces from local and national collections. These are three shows you don't want to miss!

> **LAWREN HARRIS, Canadian Visionary, founding mbr of Group of Seven -- March 1 to May 4**

> **Myfanwy MacLeod, or There and Back Again -- March 8 to June 8**

This exhibition presents a new body of sculpture by the Vancouver-based artist Myfanwy MacLeod.

Drawing upon motifs associated with the sexually charged music of Led Zeppelin and the novels of J.R.R. Tolkien, the exhibition examines the conventions of the heroic quest as a male fantasy.

> **Artists' Choice: Cock and Bull -- March 8 to June 8**

Presented in conjunction with Myfanwy MacLeod, or *There and Back Again*, this exhibition features work from the Gallery's permanent collection selected by Myfanwy MacLeod and Grant Arnold following the model of "cock and bull story",....

+ **Thursday March 20th**

**A free public talk for the Botany Section of Nature Vancouver (Vancouver Natural History Society).**

**Title: To flower or not to flower: Evolution of delayed flowering in a long-lived orchid**

**Speaker:** Dr. Jennifer Williams

**Location & time:** Unity of Vancouver Church 5840 Oak St, Vancouver -- **7:30pm**

**Synopsis:** Is it advantageous for a plant to start flowering when it is young or small; to make lots of seeds or a few? Jennifer will talk about the evolutionary theory underlying these ideas and some recent results in the context of flowering strategies in the purple orchid (a Mediterranean species).

Jennifer is an Assistant Professor at UBC in Geography and the Biodiversity Research Centre. Her research is mainly focused on understanding factors that influence the population growth of both rare and invasive plants. After 16 years away from the Pacific Northwest, she is becoming reacquainted with its climate.

+ **Sunday March 23rd**

**Ecology of a Coastal Temperate Rainforest, UBC Botanical Gardens.**

A free Nature Vancouver event. **Trip leader:** David Cook **Registration:** Not required. **Duration:** Approximately 3 hours.

## +++++ HEADSUP SECTION +++++

### ==> HEADSUP A {March 4}

Yes, **today, March 4th, is Mardi Gras** (Fat Tuesday, before Ash Wednesday/Lent), but it's also Nat'l (US) Grammar Day. Well, we missed [telling you about] the **WVPD's identity theft and fraud awareness** [info booth] this morning (but there are other [occasions], see ONE), and the talk on public engagement for **Cmnty Planning** (something we shd find out about to suggest to WV, TWO).

THREE: **Grammar Day, Grammar websites, Grammar Quiz, and Grammar Haiku :-)**

### ONE

**March is Identity Theft and Fraud Awareness Month.**

Throughout the month of March 2014, officers with the West Vancouver Police, Community Services Unit (CSU), will work to educate our community on Fraud and Identity Theft prevention.

[Visit the "Protect and Prevent" page of our website for links to fraud and identity theft prevention information.](#)

CSU members will also be holding information booths throughout the municipality at the following locations:

**Tuesday, March 4th - 10:30am - 12:30pm -- West Vancouver Library**

**Friday, March 7th - 12:30 - 3:30pm -- BC Ferries Horseshoe Bay Terminal**

**Tuesday, March 11th - 9:30am - 12:30pm -- Gleneagles Recreation Centre**

**Friday, March 14th - 11:30am - 3:00pm - Park Royal North (by London Drugs)**

Wednesday, March 19th - 11am - 2pm -- Squamish Nation Elders Centre

Friday, March 21st - 9am - noon - West Vancouver Recreation Centre Atrium

Tuesday, March 25th - 11am - 1pm - West Vancouver Seniors' Centre

Friday, March 28th - 11:30am - 3pm - Park Royal South (Mall Area Beside Extra Foods)

Information will be made available to all WV residents through [www.wvpd.ca](http://www.wvpd.ca), and through our BlockWatch and BusinessWatch programs. If you have any questions about Identity Theft Prevention contact Cpl. Nick Bell from the Cmnty Services Unit at 925 7349.

### TWO

**TONIGHT: Challenges & Trends: Public Engagement for Community Planning**

Dr. Maged Senbel, Assistant Professor, UBC School of Community and Regional Planning, will explore the challenges and trends that the City of Vancouver and residents have encountered with the City's public engagement process in building new community plans for Vancouver neighbourhoods.

Tuesday March 4th; 7 - 9pm; University Women's Club at Hycroft

This website has a long list of 'grammar' haiku with 'in' jokes.

Lynne Truss of "Eats Shoots and Leaves" convinced me of the logic of the serial comma (also called the Oxford or Harvard comma) -- it's arithmetic!

Many of you will have heard of the grocer's apostrophe (mistake). Some sprinkle their prose with apostrophes. I threatened the NSN that I'd report them to the Apostropher Royal for leaving off the possessive S writing Tim Jones's name

[Remember? Bridget Jones's Diary, and Bridget is the Joneses' daughter. The word has to be plural to omit the possessive S. Many forget the plural needed.]

Of course the apostrophe is also used in contractions.

[sic] was explained in a WVM.

Questions and clarification requests welcome.

### === SPECIAL CCL MTG NOTES Ø We don't get minutes from this so the agenda is all we know!

Note: At 4pm the sp Ccl mtg will commence in open session in the MFCR and will be immediately followed by a motion to exclude the public in order to hold a closed session, pursuant to section 90 of the *Community Charter*:

(a) personal information about an identifiable individual

(c) labour relations or other employee relations;

(d) the security of the property of the municipality;

(e) the acquisition, disposition or expropriation of land or improvements,

(i) the receipt of advice that is subject to solicitor-client privilege, including communications necessary for that purpose; and

(k) negotiations and related discussions respecting the proposed provision of a M service that are at their preliminary stages and that, in the view of the council, could reasonably be expected to harm the interests of the M if they were held in public.

**Purpose of mtg: negotiations and proposed provision of a M service, personnel, employee and labour relations, land, and legal matters.**

At 7pm the reg Ccl mtg will commence in the Council Chamber.

## === REGULAR CCL MTG NOTES **February 17** ===

AGENDA REVISED FEBRUARY 7, 2014 Additional Information for Item 6

For On-Table Items Please See Items 3, 6, 9.1, and 9.2

7:00 PM

### 1. CALL TO ORDER

Mayor: Before we begin, want everyone to know about the plethora of pink -- **anti-bullying day next week**. This is our closest ccl mtg to the day. So we're all resplendent in our pink and supporting that day.

A couple of announcements.

This evening we have **West Vancouver Boy Scouts and Girl Guides in the gallery. February 16 to 22 is Scout-Guide week around the world, marking the birthdays of the founders of Scouting and Guiding**. We are pleased to have the Scouts and Guides visiting us in the Council Chamber on this occasion. Put your hands up.

[APPLAUSE]

Also, **West Vancouver's Community Centre has received the "2013 Award of Distinction" from the International Paralympic Committee and the International Association for Sports and Leisure Facilities**. This is one of the most important and prestigious awards to win, as it recognizes worldwide exemplary design and function, and excellence in accessible design in community recreation and sports facilities for athletes and spectators. The WV Cmnty Ctr is well-known and recognized for its accessible design. It previously received the ONCE Foundation Prize for Accessibility in Architecture at the 2010 World Architecture Festival in Barcelona.

The facility has been intentionally constructed to create barrier-free sport and recreation participation for athletes of all abilities, and for accessible spectator viewing. In keeping with the District's Access and Inclusion Policy, this award recognizes the wonderful manner in which the Cmnty Ctr provides access to the broadest and widest range of needs.

This is the ninth award for that facility. Both the Cmnty Ctr and the WV Aquatic Ctr are also featured in a newly released book called *Pools; Aquatic Architecture*, by the architect who designed the facility. We wd like to express appreciation to the architect, Darryl Condon, who is in the gallery today -- there he is --, for providing all of Council with a copy of this book and for all his hard work and dedication in designing both the community centre and aquatic centre wch has become such a well-loved facility for our community.

APPLAUSE

I want to comment briefly on the p1 story about our police.

re media coverage about the WVPD, **assure all our citizens the cmnty is well served by our police**; they're working hard; recognize some personnel issues, and the issues will be resolved. Want to **assure the Police Union; the Police Board is investigating and we will be taking action**.

Wd like to **announce the Police Chief has resigned -- sorry, has retired**. Chief Constable Lepine informed the police board last week of his retirement. We thank him for his, what will be, five years of service and wish him all the best. He will remain as Chief until such time as the board finds a replacement. We're beginning that search today.

{My understanding is he leaves when his five-year contract is up later this year.}

### 2. APPROVAL OF AGENDA

amended by: Adding to Item 3 the Jan 27 and Feb 3, 2014 special and regular Council meeting minutes;  
Adding to Item 6 a report regarding proposed "5 Year Financial Plan Bylaw No. 4780, 2013";  
Adding to Item 9 Items 9.1 and 9.2 regarding correspondence

### 3. Adoption of Minutes

*January 27, 2014 and February 3, 2014 Council meeting minutes to be provided.* {when amended at mtg; see above}

RECOMMENDED: THAT the following Minutes be adopted as circulated:

January 17, 2014 **special** Council meeting; January 27, 2014 **special** and **regular** Council meetings; and  
February 3, 2014 **special** and **regular** Council meetings.

40% were attending for the first time

challenges; want to make it better ev year; bring on new sponsors; improve our financial reserves

2012 not good to us financially; the year tried the two-day festival -- not v good weather, rev was down

recover from that; we're doing fine

increase public profile; been quiet for a number of years and that's why here today to let you know we're still alive and

doing our job.

You all have a handout -- a brief summary...

we really app the support we get from DWV, esp Christie Rosta, Cclr Sop (he can give us ideas but can't vote :-))

**have a two-minute video for you [ended 7:16]**

Mayor: great video, thank you. Questions?

Sop: outstanding job

Sat, the past directors -- invited to Salmon House to honour Jim McCarthy; in attendance was the Federal Fisheries Minister and the Secretary; [McCarthy] presented with a wonderful plaque

his work honoured

Min went away with [knowledge of] thirty years of dedication, high regard for salmon habitat; impact on her money for PSF

three NSh Ms support the festival; don't rely on grants, through sponsorship so not taxpayer-funded

Gordon Adair and I, and Bill Chapman go way back, over 30 years; you have these folks here now

head on, straight, education, not going to stop

KF: thank you

Sop: outstanding, move received for information, with thanks.

Mayor: thanks again for coming; one of the great fun events on the waterfront...

KF: it's a pleasure

Mayor: beer garden again this year?

KF: don't know yet

**REPORTS [7:19]**

### 5. Reports from Mayor and Councillors on Boards, Committees, and Working Groups

> **MB** {McCreary sent email}: youth grades 7 to 12, completed the survey; decrease in serious injuries attended the report launch of the **McCreary Centre Society's 2013 Adolescent Health Survey** (30,000 youth in BC, grade 7-12) this past Wednesday.

Here are some quick highlights that may be of interest {list though marked, not parallel}:

- Increase in youth identifying as either bisexual or lesbian; more youth living with grandparents;
- 1% were in foster care; 9% had run away from home;
- **2% were caring for their own chn**; with this was an increase in poverty and a decrease in extra-curricular activities;
- **25% had a disability, such as asthma or a mental health concern**;
- **Females were 3x more likely to identify a mental health condition**;
- 90% had cell phones – those without saw a decrease in friends and a decrease in food (poverty);
- Those with cell phones had more supportive adults in their lives, but were also more unsafe because of cyber-bullying and access to the internet.
- **There were decreases in: serious injuries, hunger, risky sexual behaviours**, ever trying alcohol, having sex after consuming drugs/alcohol, abuse, and ever trying marijuana, cocaine, and heroin.
- There was an increased use of condoms;
- **13% of females experiences sexual abuse or were forced into sexual relations**;
- 36% had been discriminated against; 87% of males and 76% of females report good or excellent mental health;
- 22% of females have self-harmed – 3x higher than males;
- Females reporting extreme stress and the struggles appear to start at age 14;
- 5% of females are not accessing help because they don't want their parents to know or b/c the services are not available in their community;
- Signif link between less/lack of sleep and an increase in mental health concerns
  - more than 9+ hours of sleep = positive mental health;
- Participation in organized sports, dance, yoga, etc. is down because of costs, too busy, can't get there and bullying;
- The top protective factor is connectedness to school, next is positive family relationships;
- Youth want to feel valued and engaged and participate in activities that are meaningful.

Mayor: public input; anyone else wish to speak? will ask for after Carolanne finishes, wch will be in three minutes or less.

CR: in three minutes, right

Carolanne Reynolds, Editor of West Van Matters wch came out at 8 o'clock this morning after I stayed up all night.

First of all, congratulations on your award from the GFOA for the clarity in your budget

and also the Core Service Review by divisions was a valuable exercise that you had this year.

I agree with some cclrs who now want to delve deeper. I wonder if **second reading cd wait until after the report in March**

that Mr Koke has just referred to The **deadline** of course is **May 15** so you're not in a hurry and I'm not suggesting you wait

till that time but if you're going to get that report, you still have the time; you might want to take that into consideration when

you're looking at the budget.

Pls **consider having an account per devt application** -- they are numbered so it might be easy to calculate how much each of these costs and after we see the costs and look at them, we can **see what the average is and see if we're keeping it to be revenue [, neutral], uh, that it pays, that we're not paying, that it's just even, they pay what they have to, not paying more or less.**

It is difficult to make choices when wanting to be frugal and many worthy projects have to fight for funding -- and as you know it often is a question of the most persuasive or powerful. Many years ago I **suggested a formula for CACs, CBs**, and will continue to try to have Ccl consider it. For example, if you get a CAC, you can have a formula that

**10% goes to environment, 10% to an arts fund, 10% to a sports fund, 10% to a heritage fund, so they build up their**

**own funds**, you don't have to **start going [only] with [depend only on] the budget**. That cd be 10% each but you might want to

add another category, {or make it 15% each}. This is just a suggestion; in any case, it leaves 60% for you to do whatever

projects you want, but at least these groups know they're getting something and **you might want to make it 50-50**. That way

there's no 'perceived competition or rivalry' -- there'll be a base they can be sure of for some of their minimal requirements

and plan accordingly, even fundraising, but at least no one will be left out entirely, and then you know some things won't get left

out -- or how you arrange it but then have some formula. You still have your full rights to do with the 50% but at least we can

build up funds that then these various areas can plan about.

As for the salaries, thank you for the explanation that Mr Koke gave, there are other ways of approaching that and I think

that's a big task for you. That's been in some {inaudible}. Obviously there are some ppl who are underpaid, some ppl who are

correctly paid or average, some ppl are overpaid, and that's a big study to take

Even the VSun has said it's [municipal salaries/staff] overpaid.

Mayor: an engg issue

RF: no opinion at this time Engg and Planning staff

MB moved that:

1. Rezoning/Devt Permit Applicn for 870/876 Keith (Parcel 3 of Evelyn by Onni) advance in the applicn review process;
2. Staff bring fwd a proposed bylaw to amend the Zoning Bylaw and a proposed Devt Permit for Ccl consideration; and
3. Staff bring fwd proposed Master Plan and Master Devt Agreement amendments for Council consideration.

ML: 2nd

**CC: the only thing -- p9 re uplift and an add'l CAC will be determined. the only way if it is valued**

behind a grove of trees

what they're getting is a great deal of units with views; **hoping and expecting a CAC comes with this**

no doubt this is a more valuable shift

**LB: v good points and our land assessor will be providing**

we'll provide info; negotiate with the applicant as a part of a bylaw package returned to Ccl

Mayor: carries unanimously

**10. Public Questions/Comments [8:17]**

**Peter Miller:** As you know, I hope you know, I'm Prez of the NSh Heritage Preservation Society. Following up on Carolanne's mention

{At the Feb 3rd ccl mtg, I'd spoken about Heritage and Heritage Week coming...}

about Heritage Wk being this week to announce that we will be having a fayre at the WV Cmnty Ctr atrium, and there'll be a whole group of local orgs putting on displays and little events for entertaining of chn and education of their parents about the importance of the environment, animals, and in our case, heritage buildings, so that's from 11 till 2

{whoops it's from 2 - 4pm, wch I say when I speak}

**on the Saturday**

Just wanted to say **thank you for your efforts on behalf of the Binning House**

we as a Society were encouraged that there's a positive response and that there may be support for the maintenance of the bldg when other things fall into place

I personally, I read Cclr Sop's comment's in the NSN and I was v encouraged and I wd like to just follow those up our concern about loss of heritage in our cmnty by **urging you to consider re-establishing our HAC**, our Heritage Adv Commission, that was disbanded some time ago.

**I am involved, as you know, with the whole of the waterfront from the District, the City, and West Vancouver**; and the District and the City of NV's HACs are busy and do, I think, a valuable job and I wd like to, as I say, urge you to discuss re-establishing one in the District of WV

Mayor: one thing you might want to do, sir, along that line, maybe ask Ms Leemhuis wch staff mbr wd be appropriate, but I think it wd be **helpful for Ccl if we understood what the difference [is] between your heritage society and the HAC. What wd be the advantage of one vs the other.**

{My jaw was on the floor.

**Not only did I mention reviving a heritage body before and during the election three years ago, but also I've urged that several times since -- even at the last ccl mtg (Feb 3)!**

**Astounding to hear the Mayor say he had no idea what a HAC was; it's a govtal body, quite different from citizen groups of wch there are many. There used to be a staff mbr specifically for heritage (now it's just part of Planning).**

**Why wd he not have asked before?**

**FYI, the five heritage categories are palaeontology, archaeology, architectural, historical/cultural, and 'scenic' (environmental).**

**Peter Miller's society, as he says, is concerned with all three Ms. The WV Historical Society, obviously, concentrates on history, but there are others such as the Hollyburn Heritage Society and Heritage West Van.**

**Didn't want to jiggle the apple cart during Heritage Wk but will try to explain later.**

**Can't help thinking no suggestion/response when a woman brought it up but when a man did, a recommendation was made.**

**As many know, a M cmte has staff and can prepare bylaws wch can include enforcement, and be pro-active in recognition, protection, and preservation. For Ccl approval. A citizen group is outside govt. Many present their annual reports to Ccl, come as a delegation, ask questions/make suggestions at PQP -- all informal. (Planning is working on a Heritage Revitalization Agreement (HRA).)**

**Let's hope this is a turning point and heritage will be given the attention it deserves.}**

PM: I'll send you a letter

{he has}

Mayor: perfect; okay; thanks for coming. Carolanne Reynolds

CR starts by reading out her haiku/maiku re Canada):

### Our four-legged table

First Nations, French, British, and  
the rest of the world

that's our heritage

and as you know I chair Heritage West Van and I'm v excited -- don't have the flyer ready; wasn't ...

here is the poster; some for the M, have given some to the Library, for Museum and whatever

there are lots of events going on

Wed night the **envtal sustainability speaker** at the Old Growth Conservancy Society

{the DWV staff person in charge, Sandra Bicego}

there's a walk on Thursday; **a cream tea with a choir at the Srs' Ctr on Friday**

As Peter Miller mentioned, there's a **[heritage] fayre -- the time actually is 2pm to 4pm on Saturday at the Cmnty Ctr**

lots of displays, his group will have a display there

Invasive Plants [WG] is going to have a display too b/c I'm encouraging them to promote heritage plants

**the BC Binning house -- we're hoping to have a display on that**

The big star, b/c the **theme this year is Heritage Afloat, is the Royal Cdn Marine Search and Rescue; they'll be there so will Sewell's**

and so will be lots of our cmnty's heritage companies

WV Florist, and the restaurants will be involved -- French and British and local food

haven't finished the flyer, late as usual; but lots of things going on; hope to get the flyers distributed

and I'm **pleased the Mayor has offered to have some remarks about WV heritage, about 3 o'clock on Sat afternoon.**

and then there's a **walk in Lighthouse Park on Sunday**

I have so, more information here

{draft flyers in hand}

if you wd like to say [something], Mr Mayor I'd be pleased

Mayor: well, I'm hoping to get your notes before 3 o'clock on Saturday

[laughter]

CR: if anybody has any questions...

it's been going on for over 30 years, and so what I wd like to suggest b/c ppl seem to forget about it, and it is quite a rush after the holidays, I wd suggest that WV, with the Museum, have a special exhibit[ion] next year

{Blush. My mistake. Shd hv put [sic] but filled in the word instead. Darrin Morrison clarified for me that exhibits are pieces in an exhibition. I slipped and shd hv said an exhibition. Will try to remember for next time, Darrin! }

[during Heritage Week wch starts] always on the third Monday in February,  
 b/c when I was on Ccl we had, got, a gift of about 100 Norris cartoons and they're all about WV  
How much fun that wd be to have an exhibit during heritage week of Norris cartoons, all about West Van

Mayor: it's a good idea

CR, holding up the Heritage Wk poster from Heritage BC: there's what it looks like

Mayor: thank you [8:24]

MB: WV Youth Band's fundraiser at Centennial Theatre, Feb 22; I'd be remiss if I didn't say that

Mayor: you forgot to mention that I'll be saying a few words on their behalf

MB: there you go

Mayor: **being a former French horn player in the WV Boys' and Girls' Band as it was known then**

**11. Adjournment**

{CR gave the Mayor several copies of the Heritage Week / Heritage Afloat poster of the SS Sicamous for the M.}

#### + Newsbit Feb 21 re Mid East ping pong:

Outlining the Palestinian positions, Ashrawi said recognition of Israel as a Jewish state is a non-starter. She noted that the PLO [had] already recognized the state of Israel in 1993 and alleged that Netanyahu manufactured the new demand about the Jewish state to create another bargaining chip in negotiations.

### === FISHWATCH === Alexandra Morton

My personal fight to protect life in the waters around my home in a remote archipelago of the BC coast has stretched on for several decades. What began as a letter-writing campaign on behalf of fishermen neighbours (who lost their fishing grounds as a result of fish farm industry activity), became ten years of sea lice research, then a decade of activism, involvement in lawsuits, and virus tracking.

Today, I am excited to be launching a website that brings together all that I have learned into one site. I hope to educate and inform people on what happens to their bodies, our children and our world, when they buy and consume a piece of farmed salmon. I also want to let you know what you can do to protect yourselves and our oceans.

I am writing to ask for your help. Please click on site [www.alexandramorton.ca](http://www.alexandramorton.ca). By doing so, you will help build a strong pathway to this website through the ether-world of the internet.

## === BOOKWATCH === The Orenda -- OPINION

The Orenda faces tough criticism from First Nations scholar

**Canada Reads** winning novel by Joseph Boyden perpetuates stereotypes, says Hayden King

by Hayden King, special to, [CBC News](#) Posted: Mar 07, 2014 11:22 AM ET Last Updated: Mar 07, 2014 12:15 PM ET

I wanted to like Joseph Boyden's *The Orenda*. I've been a fan of Boyden's work. *Three Day Road*, *Born With a Tooth*, and *Through Black Spruce* all had compelling themes of redemption amid loss.

Moreover, the advanced reviews proclaimed *The Orenda* a masterpiece, *Quill & Quire* calling the book a "magnificent literary beast". So I was eager to read and happy to get an advanced copy from the publisher.

Within the first few of the nearly 500 pages, it was clear why it was receiving the glowing reviews. But it was also clear I wouldn't like the book.

### A comforting narrative for Canadians

The Orenda is a comforting narrative for Canadians about the emergence of Canada: Indian savages, do-good Jesuits, and the inevitability (even desirability) of colonization.

Boyden is one of 11 children, educated by Jesuits, and now lives in New Orleans.

## QUOTATIONS                      THOUGHTS                      PUNS

Our lives are like islands in the sea, or like trees in the forest. The maple and the pine may whisper to each other with their leaves ... But the trees also commingle their roots in the darkness underground, and the islands also hang together through the ocean's bottom.
