+ **JERICHO LANDS**

Well, Liberal MP Joyce Murray to be commended for saying the Feds are about to hand over the federally-owned part to the Canada Land Corporation. V valuable property in about the highest property assessment area in Vancouver. Let's make sure extensive public input as to what we want to be there.

+ **Granville Market/Island too**

will be controlled by Port Metro Vancouver and will Mayor Gregor Robertson wrest control for Vancouver?

+ **FATE OF THE FERRY BUILDING GALLERY -- cloudy**

Facts, rumours, and inaccuracies swirling but at least it's been withdrawn from July's agenda and postponed to Sept. Time to do the research needed wrt its original form, what restoration exactly is needed, what options there are, and more importantly more clarification of the plans for the waterfront. Two or three more homes are to be purchased and turned into green space. Maybe have a WG or cmte or task force to study the situation and get lots of public input -- then we're not fighting a series of battles over bits.

{Update: postponed to next year.}

+ **DUCKLINGS**

Well, our hearts all go out to the little ducklings and the person who tried to help them. An act of goodness and kindness -- the sort of ppl we want in Canada.....  
I was under the impression that drivers are guilty if they run into a car from behind --

they must be following too closely. Aren't you supposed to leave at least a car length between you and the next car for every 10mph?

The woman's car was stopped. Surely the driver behind wd hv seen that, no?

and then you mentioned the motorcyclist was speeding -- even more reason to think the wrong person was blamed.

Besides, let's not discourage respect for our fellow creatures.

Seeing motorists on the causeway stopping to let Canada geese or beavers cross is endearing -- and right!

#### + WVM

yes, v v v late. Sometimes life, obligations, and options are overwhelming, even a bit of illness. The Headsup and notices sent to subscribers kept them somewhat up to date. No doubt much missing. Best efforts. This is, after all, a volunteer effort.

Anyway, apologies.

This is 12/13 (several issues in one) and the next one will be 14 to cover the last three ccl mtgs (two v short) before the August break although this newsletter has the essence of what happened at those three mtgs. Thank gosh. Scrambling with fireworks prep and then prepping for RoyalTea-by-the-Sea Sat Aug 9. Meanwhile lots at Harmony Arts.

Something like an Unfinished Symphony. May try to put some missing in the next issue.

My laptop went into a coma and even after a week have not recovered all my folders, etc. Ghastly. Frustrating.

All I can say is 'best efforts'. I did, however, work hard to get it down below 70 pages :-)

~ June 18 - August 30 ~ **The And of the Land**

Perspectives on landscape by artists from BC -- Opening Tues June 17

... Drawing from the collection at the WV Museum, and complemented by borrowed works from local artists, collectors, and institutions, the exhibition explores the conjunction of landscape and perspective, in the works of artists who have lived and worked in BC over the past century.

The artists in the exhibition are connected through their relationships to one another, as mentors, teachers, students, and friends, and their works address overlapping themes, or even depict the same sights as different visions. ...

June 24 - July 12 -- **Symbiosis**

Kathleen Menges has always been deeply inspired by nature and numbers. Numbers can be seen everywhere and are the fundamental models or the mathematics of the universe, whereas nature is the universe's flesh and beauty. Menges

explores this symbiosis in her abstract paintings' multiple layers of textures, where you might find a hint of landscape, nature, or numbers, allowing a deeper meaning behind her paintings.

Opening reception: **Tuesday June 24th from 6 to 8pm**

July 15 - 27 -- Thoughts of Summer: A Selection of Poetry in Colour

Painters **Nina DiGiovanni** and **Kim Kasasian** bring flat surfaces to life with bold and colourful applications of paint! Possessing unique styles and points of view, each artist interprets the poetry of the world around them in a joyous contemplation of nature. DiGiovanni's vibrant paintings combine loose brush strokes and mosaic-like patterning to create the suggestion of familiar animal & plant life. Kasasian uses colourful primal and organic shapes to create to create abstract pieces of art that magnify the vastness of the natural world around the human experience.

Opening reception: **Wednesday July 16th from 6 to 8pm**

July 29 - Aug 10 ~~ Ballet

With a background in commercial illustration, [Stephen Dittberner](#) has a clear understanding of composition and the ability to use expressive brushwork to move the viewer. He applies these skills to a series of gorgeous paintings depicting the graceful, joyous, and contemplative world of ballet. Dittberner's scenes, whether of ballerinas in mid dance or waiting in the wings, glow with a light and poised elegance that is sure to charm.

Opening reception: **Friday August 1st from 6 to 8pm**

Aug 12 - 24 ~~ Surrender

Textile artist **Fariba Mirzaie** invites us the 'surrender' and 'trust the process' nature employs to create unity from variety and order out of chaos. Taking inspiration from surrendering to nature's process of change, Mirzaie creates thoughtful and beautiful works of art by printing, dying, embellishing, and manipulating the structure of fabric to create strong organic forms in a natural colour palette.

Opening reception: **Wednesday August 13th from 6 to 8pm**

+ **Second Sunday Series: Rising Stars- Sophia Cho, Olivia Cho, & Hamilton Lau**

On **July 13th**, join us for an afternoon of **classical music** at the **Roedde House** and come early for **Tea & Tour**.

The Roedde House Museum Second Sunday Concert Series presents its second annual "Rising Stars" concert showcasing young local talent. String playing sisters Sophia and Olivia Cho (violin and cello) are joined by pianist Hamilton Lau in this heat-of-summer chamber music sizzler. These three young and accomplished musicians (15, 13, and 11, respectively) are already burning brightly, winning competitions and accolades, and performing as soloists and chamber musicians in such venues as the Orpheum and the Shadbolt Ctr. If this trio of young performers is any indicator, the next generation of music in Vancouver is in good hands.

Tickets (\$10) are available here <http://www.brownpapertickets.com/event/743326>

THE SECOND SUNDAY CONCERT SERIES

This concert is part of a monthly concert series, taking place on the 2nd Sunday of each month, in the afternoon. Come at 1pm, for Tea and Tour before the concert (included in the price of the ticket), or show up right before 3pm for the concert, at your convenience. The show starts at 3pm sharp, don't be late!

== **WALK in the PARK** ==

This month I have a field trip along the trails of Stanley Park to view how the forest has regenerated after the storm of 2006 [and later a hike up to the peak of Mt Strachan in Cypress Provincial Park]. Kind regards, David

Sunday August 24th ~~ **The Perfect Storm**

An interpretive field trip for Suzuki Elders: Bringing youth and elders together. **Trip leader:** David Cook

Meeting location & time: 10am in the parking lot at Third Beach concession stand in Stanley Park. Turn right at Tea House after the Hollow Tree then right again.

Duration of field trip: 2 to 3 hours. **Registration:** Not required

Description: Walk with me through the forest of Stanley Park where the **effects of the storm of 2006** were most destructive and see how it is recovering by natural regeneration w/ some assistance by human management. We will discuss how such natural events are beneficial to the long-term ecology of a forest, and see how we as managers can influence the **pace of forest recovery** as well as guide it towards what we require as users of the forest.

A free public event sponsored by Suzuki Elders. All ages welcome. Membership in Suzuki Elders not required.

====> HEADSUP 11A: Update and Ahead (to Jun 26)

{Weekend} Happy National Aboriginal Day and Happy Summer Solstice (June 21/22)! So you've had the longest day this year and the shortest night!

G (and I) were in Seattle for the AGORA seminar at U of W Friday; Saturday was the Opening Night/Reception (with the Lt Gov in attendance) of Bard -- *A Midsummer Night's Dream* -- three plays (IMVHO); fun, music, and dance on the outrageous side. Umbrellas a bit of a theme -- hope that's to keep the rain away this summer!

Sunday to recover so apologies the draft did not get transmitted.

Some belated (keep in mind for next year!) and some late-breaking news/mtgs/events. Chronological order.

Info on Lt Gov at end followed by QTP.

Am throwing this together to get it out -- will tidy up later.

Congratulations to (former mayor) Pam Goldsmith-Jones who secured the federal Liberal nomination in our riding. The incumbent, John Weston, is the Conservative choice.

---> SUNDAY June 22nd**The Champion Trees of Stanley Park**

An interpretive natural history field trip for Suzuki Elders: Bringing youth and elders together.

Trip leader: David Cook

Meeting time and location: 10am in the parking lot at Third Beach concession stand in Stanley Park. Turn right at Tea House after the Hollow Tree then right again.

Duration of field trip: Approximately 2 hours. Registration: Not required

Description: Stanley Park retains some specimens of **Douglas-fir and western redcedar that are between 500 and 800 years old**. Also during our walk you will see **two of the largest bigleaf maples in BC, and a large red alder**, all designated as Champion trees. Champion trees are record-sized trees for their species. Our route will also take us past two of the most publicized cedars in BC; **the Hollow Tree and the National Geographic Redcedar**. Share my fascination with these veteran giants and discover why some trees in the Pacific Northwest have reached such a great age and size.

A free public event sponsored by Suzuki Elders. All ages welcome. Membership in Suzuki Elders not required.

NORTH SHORE ADVISORY CMTE ON DISABILITY ISSUES MTG ~ 5 - 7pm ~ DNV M Hall**BC Lieutenant Governor Judith Guichon** from http://en.wikipedia.org/wiki/Judith_Guichon

{NB: In Canada, the first syllable of Lieutenant is pronounced LEFF.}

Personal life -- Guichon was born in Montreal, Quebec, in 1947, and raised on a farm near Hawkesbury, Ontario. She moved to British Columbia in 1972. Her first husband, Lawrence Guichon, was killed in a motorcycle accident near the family ranch in 2003. She and her current husband, Bruno Mailloux, maintain their private residence in the [Nicola Valley](#).

Career

Prior to Guichon's appointment as Lieutenant Governor, she owned and operated Gerard Guichon Ranch Limited in the Nicola Valley in the BC Interior. **The Guichon family has ranched in the area since 1878**, and Guichon's father-in-law was awarded the [Order of Canada](#) in 1974 for his leadership in Cattleman's Associations and his contribution to agriculture in Canada. Her four children now manage the ranch with a 700-head cow calf and 700 yearling operation. Guichon studied Holistic Management, a farming method which promotes sustainable management of livestock by emphasizing their natural habitat. Along with her late husband, commercial pilot Lawrence Guichon, she introduced Holistic Management to the ranchers of British Columbia.

In addition to her ranching initiatives, Guichon is also involved in several organizations. She previously served on the local hospital board and Community Health Council, and is now on the Community Health Foundation Board. Prior to this, she has served as a 4-H Leader and started a recycling society in [Merritt, BC](#) with a neighbour. She has also served as a director for the Fraser Basin Council of BC, director of the Grasslands Conservation Council of BC, member of the [Nicola Water Use Management](#) planning committee and played the flute in the Nicola Valley Community Band... Prior to her appointment as Lieutenant Governor, Guichon served on the Provincial Task Force on Species at Risk and has just completed her two-year term as the president of the BC Cattlemen's Association. She has also been a part of the Ranching Task Force for BC and the BC Agri-Food Trade Advisory Council. [\[2\]](#)[\[3\]](#)

### ==>> HEADSUP 11E: Tu July 8

Well, have already sent out the July 7 ccl mtg agenda (in a Headsup 11D) with its main items noted.

In case WVM12 not out today, Tuesday has at least three things of note.

#### TUES July 8

~ noon - 1:15pm ~ Canada's Global Role in the 21st Century -- Three Key Principles

**MPs John Baird and John Weston** at the Hollyburn Country Club (details below)

~ 4 - 5:30pm ~ **CEC** mtg at the MHall {LATER: found out this was a subcmte mtg; DWV Calendar incomplete}

3.1. Next Steps - Orientation for Working Groups

3.2. CEC Draft 2014/2015 Workplan

3.3. Schedule for initiating the Corporate Cmnty Energy and Emissions Plan (CCEEP) Working Group

~ 5:30 - 8:30pm ~ The **Bloedel Conservatory** and Queen Elizabeth Park -- Heritage Vancouver Walking Tour

DETAILS {Weston, then Bloedel}

### ✈ Our MP John Weston Welcomes The Honourable John Baird, P.C., M.P.

**Tuesday, July 8th, 2014 12 noon – 1:15pm** For Lunch and Lively Discussion about

**"Canada's Global Role in the Twenty-First Century – Three Key Principles"**

Doors open at 11:45am; Lunch begins at noon Open to the public but pre-registration is required.  
Cost to cover lunch: \$25 (Cash only please)

### Hollyburn Country Club – The Creekside Room 950 Cross Crk Rd, WV

To register please visit – <http://bit.ly/1pG4AAA> For enquiries call 604 981 1790

The Honourable John Baird and MP John Weston

#### About The Honourable John Baird

John Baird has served as Canada's Minister of Foreign Affairs since May 2011. He was first elected as the Member of Parliament for the riding of Ottawa West-Nepean in 2006. Shortly after, he was appointed to the Privy Council as President of the Treasury Board. He has since served as Minister of the Environment, Minister of Transport, Infrastructure and Communities, and Leader of the Government in the House of Commons.

Prior to entering federal politics, Mr. Baird served as a Member of Provincial Parliament from 1995-2005. MPs from all parties voted him as 2010 Parliamentarian of the Year. He holds an Honours Bachelor of Arts degree in political studies from Queen's University.

#### ✈ Join us this Tuesday Evening for an exclusive 'behind the scenes' tour of the Bloedel Conservatory and Queen Elizabeth Park Tuesday, July 8 from 5:30 to 8:30pm

Tour guides: John Coupar and Vicky Earle; \$20 includes entrance fee to the Conservatory

In 2010 The Bloedel Conservatory, a prominent feature in Queen Elizabeth Park, was on Heritage Vancouver's Top Ten Endangered list. Thanks to the work of many community members and "Friends of the Bloedel", and the VanDusen Botanical Garden Assn, the Conservatory is no longer threatened.

As a signal that its future is secure, the City is currently replacing the acrylic panels that make up the iconic domed roof. The roof is expected to be completed by end of summer 2014.

The Heritage Vancouver Society and the VanDusen Botanical Garden Assn invite you to join Park Board Commissioner, **John Coupar** and VanDusen Botanical Garden Governor, **Vicky Earle** for a tour of the Conservatory and Gardens at Queen Elizabeth Park. Find out about the history of the park and conservatory, the techniques being used to restore the roof and life of the plants and birds that call Bloedel home.

Purchase tickets via [Eventbrite](http://Eventbrite). Any remaining tickets will be sold at the conservatory entrance 15 minutes before the start of the tour.

#### ==> HEADSUP 11F

Important talk tomorrow night -- the future of Howe Sound ! -- but first some decisions from tonight's marathon mtg that went to after 11pm.

#### Ccl Mtg July 7:

{NB: I missed the first ~ ten minutes so can't report on that till tomorrow.}

= Library's 2013 Annual Report; Slides, presentation, and website:

<http://www.westvanlibrary.ca/sites/default/files/uploads/board/!annual%20report%202013%20final%20website.pdf>

= Planning's presentation of: [Single Family Housing - Siting, Form, and Character](#) was a pleasant and encouraging item. Residents will get more say in what their nbrhd looks like -- get organized and give feedback/input wrt the new measures. Many aghast at a 17,500sf house being built so having a cap on the size of a house may be introduced (even if a huge lot and qualifies).

= Q1 Operating Results: if I heard correctly, got \$13.6M from Grosv for 1300blk; Fire Dept has exceeded budget overtime and unscheduled severance (will be addressed by CAO)

= Several items were postponed to July 21st ccl mtg.

= Motion for noise non-enforcement {5:30 - 8pm} by Collingwood was defeated (discussed roughly from 8:30 to 10pm)

= PkR's **752 Marine Drive** towers applicn will proceed to the next stage; CC wanted an overall plan rather than ad hoc (proj by proj); also hope for addressing intersection of TWay/MDr.

= **Maison Milliken** bylaw adopted.

= **Coach House** Bylaw passed all three readings (with Sop opposed).

= Mtg adjourned ~ 11:07pm.

#### The Howe Sound LNG Experiment at Woodfibre – Information Session

<130603095919-usa-natural-gas-exports-620xa-300x180.jpg>

July 8th at 7pm -- West Vancouver Public Library,

#### The Future of Howe Sound Society & My Sea to Sky with Eoin Finn B.Sc, Ph.D., MBA

Premier Clark intends for Woodfibre Liquid Natural Gas near Squamish to be the first LNG processing and export facility on the coast with a 2017 operational target date.

What does this mean for Howe Sound and how will this impact citizens of West Vancouver? This project is currently in a very limited public comment period, now is the time to learn more.

1,000 foot long LNG Supertankers carrying Class A Hazardous cargo will cross BC Ferry lanes as they travel through Howe Sound.

Knowledgeable panellists will inform, answer questions, and share information regarding expansion of the Fortis pipeline, processing facility, and shipping through Howe Sound to Asia. Please attend to learn more about this important project

**Dr. Eoin Finn is a retired KMPG partner, with a PhD in physical chemistry and an MBA in international business. He is a 30-year part-time resident of Bowyer Island in Howe Sound.**

#### ==> HEADSUP 11G: Mtg/Legal Qs

The continuing WVM12 saga: Ccl mtg start?; mtgs; Bard; DWV legal loss; {QTP moved to newsletter}

B/C I missed the first few minutes of the ccl mtg Monday night {July 7}, as I said, I attempted to watch/listen to the video on the website [ <http://westvancouverbc.swagit.com/play/07072014-1010> ].

**Strangely, it starts with the Mayor in mid-sentence:**

--and Gregory Stevens. Cclrs Booth and Lewis are also on the cmte, and I'm also a mbr of the cmte, The Terms of Reference of the cmte were amended earlier this year, and we look forward to reactivating the cmte, and doing good work. And with that said, ... for approval of the agenda  
 {jumble of speaking}  
 oh, sorry--  
 CC: --same song sheet  
 amend the agenda by withdrawing Items 13, 14, and 15, ...; changing the revised ccl mtg schedule from Sept 29 to Sept 15  
 {Minutes adopted}  
 REPORTS -- and rest will be in the transcript in WVM13.

{I'll enquire tomorrow to see if the beginning can be recaptured, recorded and reposted, or whatever, so we know what cmte he's referring to and if anything else of significance was said.}

**DWV MEETINGS**

= **Wed July 9** ~ 7pm ~ Awards Cmte in Lawson Creek Studios  
 = **Thurs July 10** ~ 7:30am ~ Field Sport Forum WG {at MHall)

**\$5.4-million West Vancouver home saved from wrecking ball****Homeowner wins long-running wrangle over waterfront location**

A wrecking ball will not be swinging over parts of an exclusive WV home assessed at \$5.4-million after its owner went to court to prove you can fight city hall.

A B.C. Supreme Court judge has dismissed a petition from DWV and instead ruled in favour of homeowner Jie Liu in her battle to keep a carport, family room, and landscaping built before she bought the waterfront property in 2011.

The encroachments, on an undeveloped road allowance, were discovered many years before Liu bought the home at 2998 Park Lane, but legal action did not begin until last October, when the District asked the court to order demolition of all the structures.

Justice Glen Parrett has ruled that the District has not provided any paperwork related to the encroachments and has failed to prove they are unauthorized or unlawful.

He also notes that WV has issued tax notices for the disputed land to Liu and the home's previous owners, and those taxes have always been paid.

Parrett says not only are the home renovations and landscaping now covered by an easement for the life of the buildings, West Vancouver must also pay Liu for her legal bills and court costs related to the dispute.

## === MUDDLED EAST -- MORASS OF MURDER ===

**Scoreboard as of July 11: Gazans killed 175; Israelis 0**

A few Gazan rockets with no one killed and only a couple of injuries

Hundreds of bomb/air strikes, 100s of homes ruined, ~ 1000 injured with 75% civilians (according to the UN)

How irrational? strange? inhuman? for our PM to say Israel has the right to defend itself (I agree), without any consideration of the situation in Gaza -- no right to defend themselves?

Let us work for reduced conflict.

### Chris Hedges and Juan Cole comment:

> **Chris Hedges | Israel Is Captive to Its 'Destructive Process'** Chris Hedges, TruthDig

"There will never be transports or extermination camps for the Palestinians, but amid increasing violence against Palestinians larger and larger numbers of them will die, in airstrikes, targeted assassinations and other armed attacks. Hunger and misery will expand."

[READ MORE](#)

**Israel Is Captive to Its 'Destructive Process'** By Chris Hedges, TruthDig 14 July 14

[Raul Hilberg](#) in his monumental work "The Destruction of the European Jews" chronicled a process of repression that at first was "relatively mild" but led, step by step, to the Holocaust. It started with legal discrimination and ended with mass murder. "The destructive process was a development that was begun with caution and ended without restraint," Hilberg wrote.

The Palestinians over the past few decades have endured a similar "destructive process". They have gradually been stripped of basic civil liberties, robbed of assets including much of their land and often their homes, have suffered from mounting restrictions on their physical movements, been blocked from trading and business, especially the selling of produce, and found themselves increasingly impoverished and finally trapped behind walls and security fences erected around Gaza and the West Bank....

... The last time Israel mounted a Gaza military assault as severe as the **current series of attacks** was in 2008, with Operation Cast Lead, which lasted from Dec. 27 of that year to Jan. 18, 2009. That attack saw 1,455 Palestinians killed, including 333 children.

Roughly 5,000 more Palestinians were injured. A new major ground incursion, which would be designed to punish the Palestinians with even greater ferocity, would cause a far bigger death toll than Operation Cast Lead did. The cycle of escalating violence, this "destructive process," as the history of the conflict has illustrated, would continue at an accelerating rate. ...

... Israel is currently attacking a **population of 1.8 million that has no army, no navy, no air force, no mechanized military units, no command and control and no heavy artillery**. Israel pretends that this indiscriminate slaughter is a war. But only the most self-deluded supporter of Israel is fooled. The rockets fired at Israel by Hamas—which is committing a war crime by launching those missiles against the Israeli population—are not remotely comparable to the 1,000-pound iron fragmentation bombs that have been dropped in large numbers on crowded Palestinian neighborhoods; the forced removal of some 300,000 Palestinians from their homes; the **more than 160 reported dead**—the U.N. estimates that **77 percent of those killed** in Gaza have been civilians; the destruction of the basic infrastructure; the growing food and water shortages; and the massing of military forces for a possible major ground assault. ...

... \$3.1 billion in military aid that the U.S. gives to Israel each year. It must organize to demand suspension of all free trade and other agreements... As long as these props remain, the Palestinians are doomed. If we fail to act we are complicit in the slaughter.

## VAN DOOS

Van Doos: Storied Canadian regiment mounts the guard at Buckingham Palace

 One of Canada's most storied regiments is standing guard at Buckingham Palace for the first time in more than 70 years. Approximately 70 members of the Ceremonial Guard of the Royal 22e Regiment, affectionately known as the Van Doos, **took part in the Changing of the Guard ceremony outside Buckingham Palace** Monday morning. The regiment will also mount the guard on July 16 and 18 at St. James's Palace and the Tower of London. The last time the Van Doos stood guard outside Buckingham Palace was for one week in the spring of 1940 at the request of King George VI, Colonel-in-Chief of the regiment.

"It was a **first for the King's Guard Sentinels to receive commands, not only from a non-British unit, but also in French,**" says a statement from the Department of National Defence.... Queen Elizabeth II, who now serves as the regiment's Colonel-in-Chief, met with soldiers for about an hour on Sunday and even conversed with them in French, Forand said.... The **Royal 22e Regiment is the Canadian Army's largest**, with three regular force battalions, two primary reserve battalions, and a band. The regiment served in both World Wars, in Korea, and in all United Nations missions that Canada has been a part of....

The ceremonial home of the regiment is La Citadelle in Quebec City, where the regimental museum is housed. The regimental headquarters is located in Quebec City, with all three of its regular battalions stationed at various bases in the province of Quebec. The regiment serves as the "local" infantry regiment for Quebec.

====> **HEADSUP 11M:** Ccl Mtg July 21 Highlights

**Happy Birthday, Prince George! Our newest prince is one year old today, July 22.**

{written Tues July 22}

OMG -- getting so far behind, hope WVM12 comes out before I get to the end of the alphabet!

But want to give you some highlights of the ccl mtg last night:

- + The Mayor announced new categories for Awards Cmte; **NSN Readers' Choice Award for our Cmnty Ctr and Aquatic Ctr; Heritage body to be established**
- + The Parks Director referred to the **health advisory for beaches**: lifeguards remain, testing frequent, info on website
- + July 7th ccl mtg minutes only released hours before the mtg  
{trying to find out why delay b/c not adequate time to review; shd be a policy re date}
- + A resident who was overlooked at the July 7 mtg PQP was asked to speak at the beginning (spoke re EvDr/Onni)
- + Fascinating and informative delegation by E. Finn re Howe Sound and the **proposed LNG Plant at Woodfibre** plus ramifications. DWV will write to insist included in hearings/advisory groups. {about an hour; went until almost 8pm}
- + Reports: Youth Golf Tournament; Aboriginal Relations Cmte; v successful Dinner on the Dock
- + DPApplicn for **765 MDr, PkR-N presentation** then public input; long and rather lively -- ACDI, surprising change of attitude of PkR Towers residents. {to almost 9pm}
- + Three properties for the **Heritage Register -- WELL DONE** -- and one owner, Ms Wagner, introduced to applause (and appreciation) {I commented at PQP}
- + Convolutd discussion re **options for MDr and Pound Rd intersection** {took us to almost 10pm}
- + **Adoption of Coach Houses bylaw**; staff will work on procedures over summer
- + Consent Agenda Items started at 9:43. **Excellent staff report** and excellent comments by mbrs of public wrt a **tree policy**. Brave and needed; education, awareness, envmtal concerns {my comments at PQP}
- + Some PQP and mtg ended about 10:15pm.

= Beach Advisory lifted yesterday -- go play with the fishies!

= Howe Sound under attack? LNG Woodfibre Monday night at Ccl and now:

= **Gambier Island -- Woodlot mtg tonight at St Francis-in-the-Wood (7pm), tomorrow morning at Sewell's (9am)**  
= INFObit; QTP**Received an urgent msg:***Hello Friends of Gambier Island and Howe Sound*

On behalf of the Gambier Island Conservancy, this is an update .....

The Ministry has now informed us that they will host a **public information meeting on Thursday July 24 (7-10pm, St. Francis-In-The-Wood Church, West Van)** and **public drop-in on Friday July 25 (9-noon, Sewell's Marina Boardroom, Horseshoe Bay)**.....The Ministry has not backed away from its intention to award the woodlots. In the words of senior bureaucrat Craig Sutherland "*we will organize a local public process to help concerned individuals better understand the woodlot process*". The Ministry has not indicated that it has an open mind to the question "Is Gambier Island, in the heart of the Howe Sound recreation area, an appropriate place for a new woodlot operation?" Instead FLNR is committed going forward with the woodlots, and says that the successful applicant will work with the public to create a good management plan....For continued updates on the woodlot issue, visit the Conservancy website ([gambierc.ca](http://gambierc.ca)),Conservancy blog (<http://gambierconservancy.wordpress.com/>) or Twitter account (@GambierConserv).

Thanks for helping! Gambier Island Conservancy

All art exists on a continuum. Looking back, we can see paths form and lines connecting the many disparate elements.

Early Music Vancouver (EMV) is an organization that reaches back into this history and casts beautifully preserved antiquities in fresh light. By preserving and presenting this music with the authentic instruments and traditions intended, Early Music Vancouver fosters an understanding and appreciation of these unique moments in time.

> FWIW, both **fireworks** so far, last Sat and last night, not remarkable esp compared with those in other years, so hopes are up for this Sat. The Storm Brewing grapefruit radler was a hit.

&gt; Yikes! So busy with fireworks, etc, now doing this Headsup just spotted Ccl had snuck in another ccl mtg before stopping for the summer. We'd all thought the 10am special ccl mtg added Monday July 28 wd be the last, but nope.

They had one 10am yesterday (July 30)! I see they had three readings of a **local elections bylaw** on Monday, 28th, so

naturally wanted to **adopt it, and did so on Wed 30th**. Well, it's not a surprise there's an election in November so one wonders why the bylaw had not come to Ccl in June or the first mtg in July so no need for sp ccl mtgs. Maybe the prov has introduced something new. Will find out.

> Bad News (on DWV website): July 31, 2014

Today, Vancouver Coastal Health issued a **swimming advisory at Ambleside, Dundarave and Sandy Cove beaches**. Bacteria counts are elevated. The swimming advisory issued last week for **Eagle Harbour Beach** remains in effect. For info, call the VCH env'tal health line 983 6793.

> A bit of good news -- starting Friday morning (so already started there): a 72-hr ceasefire for Gaza and Israel (but IDF can keep military in Gaza!); let's hope for longer!

> Breaking News -- **Justin Trudeau in WV on Monday, BC Day!**

I can confirm that we will arrive (Justin and Pam) between 2:30 - 3pm, beside Crema. We will walk along Argyle to John Lawson park, dance at the Dal concert. Justin leaves at 4 pm. Aug 4. BC Day.

Subject: **Harmony Arts Festival Art Market this and next weekends!**

Date: 31 July, 2014 4:51:38 PM PDT

Please join the WV Museum at the [Art Market](#) during the [Harmony Arts Festival](#) from August 1 to 4 and 8 to 10

**FIRST WEEKEND**

Friday August 1: 2 - 9pm; Sat/Sun/Mon August 2/3/4: 11am - 9pm

**SECOND WEEKEND**

Friday August 8: 2 - 9pm; Sat/Sun August 9/10: 11am - 9pm

The Art Market location is along Argyle Avenue between 14th and 17th Street (along waterfront) in Ambleside.

This year the Museum is offering for sale art works by three important west coast artists, including *Tangled Beach*, a limited edition print by Gordon Smith, as well as an original drawing by Syliva [sic?] Tait and framed cover photographs from the Museum's publication *Selwyn Pullan: Photographing Mid-Century West Coast Modernism*. These art works were generously donated by the artists to support future Museum projects.

Don't miss this rare opportunity to purchase an original artwork by some of our most celebrated artists. The Museum will also have several publications available for sale, as well as B.C. Binning and Joan Balzar greeting cards featuring works from the Museum's collection.

While at the Festival, please visit *Vermilion Sands*, a temporary suspended sculpture comprised of modules of living plants designed by Matthew Soules Architecture and organized by the West Vancouver Museum.

See you at the Festival!

For more information, please check our [Facebook Page](#).

**Vermilion Sands**, designed by Matthew Soules Architecture, is a temporary installation for the Harmony Arts Festival on West Vancouver's waterfront. Integrating living plant-life into a geometric three dimensional pattern, the project explores the relationship between the natural and artificial, while providing a shaded social space for festivalgoers.

Public unveiling and opening reception -- **Saturday, August 2 at 4pm.**

> Heather Mersey: [slightly edited text]

... This evening I am speaking on behalf of the **Ambleside Dunderave Ratepayers' Assn** to provide our input on the topic of Coach Houses.

The ADRA mission statement has been a guide to members' efforts. In particular to work to:

- ensure any changes/developments are in the best interests of current residents
- maintain our park-like residential character through policies of sensitive, resident-supported growth
- define and protect the character of our neighbourhoods and heritage assets

ADRA recognizes the need to offer diversity in housing. Our members live in single-family dwellings, duplexes, and apartments.

Our concern is not with the concept of coach houses, but how they will be formally introduced into the community. I say formal, as there are a number of "coach houses" that have been built in West Vancouver, a few of which are located just blocks from M Hall.

The bylaws before us tonight propose a District-wide rezoning where any property allowed a secondary suite would be zoned for a coach house. With the exception of Eagle Island and the British Properties, this covers a significant area of WV. Well over 1000 properties will be affected.

The choice has been made NOT to define nbrhds or nbrhd character but rather to go for the District-wide rezoning. This, in itself, is a rather undemocratic approach. It is therefore **imperative that neighbours potentially affected by this proposed bylaw be given the opportunity for substantial input.**

ADRA recommends that:

- = 70% approval in writing be required from property owners within 100m of the applicant, whether one- or two-storey coach houses are being proposed.
- = a one-storey coach house be approved by Planning
- = two-storey coach houses be approved by Council
- = basements NOT BE INCLUDED in FAR (bulk housing)

**{UPDATE: a correction will be made to this since EXCLUDED is what was meant}**

As well, ADRA agrees:

- o that a sec ste shall NOT be permitted in conjunction with a coach house; CONCERN with CNV -- 2010 introduction of Coach Houses and now moving to allowing both on a property, only a few years later.
- o the property owner must live on the property; no option for a property manager
- o with the non-strata designation, that there be no separate title for a CH
- o with the review of CH policy after one year

In addn, - ADRA recommends that there be two designated, on-site parking spaces for CH over 400 sq. ft.

- ADRA would like to see the issue of taxation addressed, in particular:
- Duplexes taxed on the basis of two residences on a single-family lot.
- House with sec ste = two residences on a single-family lot
- House with coach house = two residences on a single-family lot

Question: Each duplex unit pays a base sewage fee, drainage fee, waste collection fee, and recycling fee.

A secondary suite does not. Would a coach house?

On behalf of ADRA, thank you for the opportunity to provide our input on the proposed Coach House bylaw and policy this evening. In particular, I would like to thank Steve Mikicich who was always available to respond to our many emails, phone calls, and generally was just available.

Mayor: thank you for your comments; I see Mr Mikicich taking notes [7:42]

## 6. CLOSURE OF PUBLIC HEARING

{made the motion; received; **PH closed** [7:50] }

**Council members are not permitted to receive further submissions once the Public Hearing is closed.**

## = REGULAR COUNCIL MTG NOTES **June 16**

For On-Table Items Please See Items 9, 10, and 12.1

{right after PH closed}

1. Call to Order.

2. **Approval of Agenda** -- amended by:

- o adding to Item 9 a written submission regarding 2013 Annual Report;
- o adding to Item 10 a memo re "Updated Revision to June 2, 2014 Resoln re Whyte Lake";
- o adding to Item 12 Item 12.1 re correspondence

3. **Adoption of Council Meeting Minutes**

MB moved THAT

1. the minutes of the May 26, 2014 [special](#) and [regular](#) Council meetings and [public hearing](#), and the June 2, 2014 [special](#) and [regular](#) Council meetings, be adopted as circulated; and
2. the [Summary of May 26, 2014 Public Hearing](#) regarding Proposed Zoning Bylaw No. 4662, 2010, Amendment Bylaw No. 4788, 2014 (870 and 876 Keith Road) be approved.

Mayor: Sorry, we have to halt our proceedings. Ms Scholes, what have we done wrong now?

SSch: Nothing, Mr Mayor. I wd like to note that the unadopted minutes of the May 26 reg ccl mtg reflect a correction made in item 17.5, on pM18, Item 17, wch had the words 'of Canada' erroneously included in the title as follows: "... Hon. S Anton, Min of Justice and Att General of Canada, May 2nd ..." and the correction has been made and those minutes are in front of Ccl this evening.

Mayor: sure we all knew that, Ms Scholes

{hm, then I wonder why no one on Ccl corrected that when they saw the draft; but appreciate that done publicly.

My concern was having changes made not directed by Ccl or in public. What is the process re changes? Will try to find out and report back.}

MB: so my motion contains that amendment.

Richard Beard: [text supplied]

I support the Invasive Plant Strategy currently before Council. I feel that it presents a rational approach which is based on good science.

Page one of the Executive Summary under *Need for Action* refers to a [quotation] which states that one dollar in prevention can avoid \$17 in later expenses. For knotweed, that seems like an underestimate where even the threat of damage to infrastructure might carry significant costs in the form of increased insurance premiums and more onerous terms for mortgage qualification.

Changing bylaws is a key component of the strategy: 4.1.2 recommends amending the Pesticide Use Control Bylaw. This will be essential so that a wider range of herbicide application methods can be used.

**Simply put: stem injection alone will not do the job of controlling knotweed.**

4.1.5 recommends amending the Good Neighbour Bylaw to include knotweed species. Where there is a complaint **The City of Vancouver is already requiring homeowners to control knotweed on their property. My last client there was given ten days to comply.**

We are, however, only one municipality and a major means of spread for knotweed and other invasive plants remains the transfer of contaminated soil and fill within and across municipal boundaries. 3.2.4 recommends working with Metro Vancouver to develop soil transfer and disposal regulations. This cannot happen soon enough.

Restoration is often neglected following invasive plant control with the result that one invasive plant is replaced by another. Item 3.3.1 addresses this and here the Lighthouse Park Preservation Society provides a good practical example.

Prior to extensive invasive plant removal at The Dale Park in Caulfeild, a plan will be in place to **replant with native species to achieve a largely self-sustaining, low maintenance, attractive natural area which will also be an important step to returning salmon to Caulfeild Creek.**

**Perhaps we can view invasive plants as presenting an opportunity as well as a crisis.**

Hugh Hamilton: go back to

**spread of Japanese knotweed and giant hogweed has become a threat**

our Ccl had the foresight to initiate a study of inv sp in WV

I think we shd thank our Ccl for taking aggressive action to address

est'd a WG, carried out its mandate since est'd in 2012; Ccl est'd, they're going to be rewarded

the report culminates the decision that Ccl made at that time

the other thing I'd like to talk about, what the WG did -- we were led by the two co-chairs, a super job of organizing us,

doing studies, organizing; Lori and Mike

when it started getting to the end, had to do a lot of editing

work carried out by Lori -- design, feature, editing, decide what recomms, this was a huge

assisted by Corinne Ambor

xxx you will see tonight; thank mbrs and....

Alexandra Mancini: [text supplied] **President of the Lighthouse Park Preservation Society.**

On behalf of our Society I would like to congratulate and thank the Working Group on the development of this excellent and comprehensive Invasive Plants Strategy.

Our Society has been **active in removing invasive plants in WV for over 16 years, starting first at Lighthouse Park and then expanding in 2008 to include 5 additional parks nearby.** I would like to comment on Item 4.5 in the Strategy and its recommendations that relate to enhancing support for local stewardship groups and encouraging the creation of new groups.

**My first msg, is that while tackling invasive plants throughout our cmnty might seem like a daunting task, it can be done! My second msg is that volunteers provide a valuable resource to get the job done.**

Our results are tangible.

Since I started tracking our hours in 2008, **our volunteers have put in almost 5000 hours of hands-on labour in six parks and that does not include the planning and organizing time.** We are almost finished the intense initial clearing phase and **moving into the maintenance phase for 5 of the 6 parks – Lighthouse Park, North Piccadilly Park, Trails, Klootchman, and a historic corner in Caulfeild Park.** Our most ambitious project will begin this fall at the Dale Park and we estimate it will take over 2000 hours of volunteer labour over a period of about 3 years to restore that heavily invasive-plant-infested park to native vegetation. Our past projects have been successful and I am confident this one will be too!

This model, working with volunteers works! It is pragmatic. We get things done. We are part of the solution here.

**Many groups like ours could be formed throughout the community.** To make this happen, the Parks Dept needs resources to help new groups get started and to provide continued support. All work plans, including replanting plans, need to be developed in conjunction with Parks staff and ultimately approved by them. This takes time and current staff are maxed out.

**Just one additional FTE, just one, dedicated to working with stewardship groups would go a long way to**

**harnessing this largely untapped, very large, and “very reasonably priced” volunteer workforce! You can't get a better deal than free labour! And we smile too! .**

We hope you will approve this Invasive Plant Strategy tonight and we hope you will support budget requests that may be brought forward this fall linked to Recommendations 4.5.1 and 4.5.2.

Thank you!

Mayor: certainly appreciate the time you

FINDINGS [attached] ????

considerable history to date

2008 FAR revisions re covered decks and access bldgs

**2010 discussions Lower Caulfeild area; limit based on a sliding scale; bigger, reduction in FAR got larger; idea**

**largest lots 20 - 30% less than allowed on smaller ones**

idea brt fwd to the cmnty; greatest sense of cmnty character in that area; resoundingly decided didn't want to see that there [7:52] staff had to move fwd w/ diff approaches in how to address nbrhd character in Lower Caulfeild there we have ability to do Heritage Alteration permits

gives us a finer grain of detail we can work on not addressed in the zoning bylaw

proposing to introduce draft in fall pertaining to change of grade at prop lines -- retaining wall now you can build 4ft on prpp so angles up; something staff wd like to look at in more depth in the fall potentially removing the ability to put retaining wall and start at GRADE

another: removal of FAR exemptions for 240sf for accessory bldgs and garages (up to 441sf)

staff: why shd matter if living room or garage

683sf removed from exemption; that's a 10% reduction in size

so, in the fall ... addl items we think we shd do work on

alt approaches to calculating grade -- around base now, creates a flat box

devping a bldg ht that runs parallel with the site; rather than a box on site

know staff and bldg don't like it: highest bldg face

now it applies to one face on the bldg, want to look at others

next basements:

defining basements as a storey

exempting not that simple

flat lot, two storey above, one below ground so doesn't count (can't see)

difficult once grade, no longer in ground

actually doing three storeys, no longer two plus basement

want to do more work on that, get back to Ccl in 2015

guidelines, relate to permeability

{at last!? bn recommending permeable surfaces for decades.....}

averaging of setbacks -- base on av on the block? more in-character

next steps: staff prep draft re retaining walls -- more public engagement possible further actions in 2015

Sop: long time in coming

put 'em through the paces; inv species, they're paying for it

massing not going to be overwhelming

interject on your position re know what want/?? expect ???

say, prop holding -- hold the phone can't do that anymore

Sokol: think some will be concerned with that however an issue that's been in front of the cmnty for decades however

feedback status quo not cmnty what cmnty wants to take and not the direction we're getting from Ccl

think you're right, some will be concerned can't build as big of a house and that may indeed be true

MB: thank you for bringing fwd; what WV stands for

report comprehensive and don't see any omission

so that's great -- keeping it simple is important; we're known as one of the most complicated cmnties to build in

look at tree policy

one Q I didn't think I had to ask

about the [recent prop] house 17,500sf including all the exemptions

Sokol: 13K, including basement 17K; lot is large, comes within

MB: other Ms have put a cap ... 3500sf one ... DNV cap

limiting of the gross floor area -- isn't there a point we cd put a cap?

talk about housing bulk, this is a huge house

cap 10K more in keeping?

Sokol: good Qs, we've struggled with

re cap, diff to know

nobody needs larger than Xsf

this house + Stone Cr -- explore what kind of incentives put in place so if you do have a large lot where smaller

&&& lot size in the diff zoning

if 2 to 3 times size of

maybe diff size in diff zones

ppl not encouraged to assemble lots

makes more sense three smaller than one big one (house)

TP: protecting our blvds -- does have an impact; when bringing?

Sokol: yes, looking at revising how we look at blvds

looking at two nbrhds

had the landscape architect, identify the nbrhd character then, 8:97

diff is that extremely staff intensive/work

probably in 2016 coming w/ some proposals; now prepare a plan for the blvd, that's what we're struggling with

CC: re blvds; you talked about established landscapes

they're the road face of ev lot; there's what they see; low hanging fruit -- we own the blvd

reason made public was road allowance and some consistency

to me, waiting two years is unfortunate; maybe establish some min standards

in my nbrhd -- they clearcut the lot and the blvd

\$6 6ft cedars then chain fence and a \$3M house

Sokol: apologize, said 2016 but will in 2015

CC: more impact

xxx anyone building a 10Ksf house

don't give a hoot xxx

know in the '80s, know we're one of the most expensive nbrhds in NAM, maybe the world impoverished

prudent is in the long-term interest of the residents

expecting a second CAC from Grosv in March 2017 and other payments related to disposition of the 1300blk for the next three years, 2015, '16, '17

 reasonable quiet on weekend at least, or in evening  
 work; not our obligation to compliment them for getting work done, they took it on  
 CC: the motion as drafted is not going to be passed by Ccl  
 what about tomorrow; have a crystal-clear set of rules  
 xxx; sev of us have diff interpretations of what can be done tomorrow  
 can I invite someone over to have a beer on my patio or can't I?  
 Conditions: till 8 o'clock with these limitations  
 65db?

need to know what work C'wood can do if we don't pass this; have to get clear tonight

Sop: nothing

CC: no, they can paint, drywall -- right, Ms Almas?

so residents shd not be phoning you if someone painting till 8 o'clock on a Thursday

Almas: correct; if no noise created

CC: turn up at 6:30 and no noise

Almas: yes

CC: and after 5:30 as long as dbs

Almas: outside 5:30, it's ANY noise, construction, any db level

CC: if we defeat this, C'wood can work as long as no construction noise; want to give clarity

Sokol: all of these, most, with the exception of 8

not granting xxx; not re construction

believe all these other things apply

CC: probably suggest cell phones; there are going to be calls, shd be ready

Mayor: possible construction without noise

Sokol: diff situation -- loud door bang, technically in violation

MB: my interpretation is any SOUND, not noise, can be in contravention

ALMAS: correct

MB: retain our motion but qualify it: interior; add, quiet work

phone is going to be ringing off the hook

that's the simple interpretation I'm taking away

keep on working, put a mattress on the floor, cd be if we're not clear.

Mayor: added interior work between 5:30 and 8:30

**Motion is defeated.**

[MTG EXTENDED past 10 o'clock]

Mayor: maybe shd ask if anyone has a question for Ms Almas

sorry

Sop moved THAT

1. Proposed Devt Permit No. 12-085, by PkR Holdings for 752 Marine, advance in the devt consideration process; and,
2. Ccl endorse the next steps for consideration of the devt applicn as generally described in the report from the Sr Cmnty Planner dated June 23, 2014.

Sop: PkR may have a size and price point affordable for WV

Cclr Lewis and I have talked about this

1960s; saw some plans on Sq Lands from 1960; one day that whole waterfront will be devpd

look at Cap Rd, town ctr, and xxx with new apts; shopping ctr itself all new devts

there's only one bridge with three lanes

not going to alter that unless (fed?) govts

for TWay and Marine have the Sq Nation move fwd with their bridge across the river -- commitment of prov govt of \$50M

we cd campaign, traffic way down M Dr, but now have to go to the bridgehead

{yes, AAMOF, traffic less dense, not as slow as it used to be in the '90s -- campaign corner -- much better now.}

if a ferry comes in, let's alter the lights on the bridge

ppl block the intersection, think PkR have xxx or the Police

there are some possibilities not borne this....

Mayor: can you wrap it up? going to turn the lights out

Sop: going to finish here

ML: being asked if shd advance, next steps according to staff

not much discussion; going to be supportive of going fwd

TP: PkR been here for 60 years and will be here for another 60; thank them  
xxx don't think that alone shd stop us from going fwd  
need to be addressing that -- transportation -- irrespective of whether this goes ahead or not  
we know Sq Nation going to be doing, asking them to tell us is a bit cheeky, they're not here asking/telling us  
xxx; we have only half jurisdiction????

xxx; can see a lot of opps within this proposal  
incredibly interested in bike piece and the car share, this is the right place  
density shd be on the transit? line  
is there any rental housing?

will be supporting and going to the next step, we're not approving tonight

NG: I agree, advancing is a good idea at this point

first time I've seen those slides and advancement

concerned wrt some of the next steps

comment from Mr Amantea re 40 - 50% support -- actually means 40-50% don't support

**public want something of a suitable, reasonable scale.**

reasonable resid density tempered by the traffic concerns

although report indicates no traffic impact but perception in cmnty is diff -- have to either educate the cmnty or have to

work hard to show that this devt will not create more traffic

if applicants want to be successful, show if fewer\* than two parking stalls per unit, more effort to show cmnty won't be a large traffic impact

{\* yay, Nora, correct! she knows the difference between countable (fewer) and uncountable (less)}

feedback, concern in cmnty re ht and form; listen to that

public consultation on the OCP and the Devt Permit drawings -- shd decouple -- public confused re general OCP and this devt; need picture

a lot of effort into consultation but fact is not many been consulted

popn 44K, consulted, arguably less [sic]\*\* than 100 actually responded, cd be 150, confused re number; but not v many

{\*\* whoops, Nora; this shd be fewer too! }

**have to find a better way to do consultation on this**

**agree with Cclr Sop, WV residents going over LGB, traffic much better today than 30 years ago. That's a fact.**

I drove out to UBC from Ambleside for four years and traffic was backed up to the Amb soccer fields; now we just sail right through in the morning

issue is not WV residents, it's from Whistler and ferries; we have little control; doesn't mean applicant shdn't show not adding to that

p13 of the policy doc, applicant has to deal with all those challenges; am sure staff on that

CC: broadly supportive, voting to move it forward; my only concern is, b/c not voting on this proposal, echoing Cclr G and partly some of the speakers, **we need to have for the District a plan for the PkR area that is more comprehensive, is up to date, and reflects the realities of today**

existing OCP for this site allows for ~75Ksf of built space; PkR proposes 300Ksf

OCP doesn't contemplate residential units at PkR; we're obviously talking about 300 resid units at PkR in this bldg

seems to be acceptance/consensus that some resid needed, good place for increased density

as Cclr Sop, financial and ppl with disabilities

shd be comprehensive; smart growth place to put density

what has tripped up DRC is, how much density?

Ccl has no basis to judge

don't know 42 storeys combined or shd be more or less; more than a low rise, but what is the right amt?

1300blk; needed a better plan, instead did that on an ad hoc, more than I wd hv liked; Maison Milliken also wd hv hoped a better strategy

**now here PkR comes fwd to devp and we don't have a plan for PkR to judge if what we want or not again reacting to what proposed to us rather than dictating, or at least stating**

staff have acknowledged this; discussion

Chalmers mentioned this in his report; density is an unresolved question, it's a policy question -- entirely right, not for proponent to decide that

**Staff have said they'll come forward with a draft statement for the OCP, draft amendment for PkR area my only concern Ms Leemhuis and Mr Sokol, we have a discussion and we come to rest on our vision for PkR and then make a decision shortly thereafter on this proj -- don't want to be in the invidious position making a decision specifically on density and then come up with a plan**

want to have comfort we've made decision in line with the future

**talk to PkR, talk to other landowners, owner NE corner wants a 20-storey tower; and Squamish have plans**

**if we want the Sq to talk to us re WV then we have to talk to Sq about our plans for this area**

**massive [court] decision came down last week; hv to show it to them; see if rubs them the wrong way**

will vote not go fwd; still Q of density, not approval of this

it may be this is what we want but hope do this work quickly so can.....

MB: won't repeat

do want to congratulate Cameron Chalmers; wasn't the answers he provided, was the questions, type of answer

what IS driving density?

mid low hirise and he sets out a v gd roadmap; 65? pages 42 pages of comments

yes, traffic is bad at that intersection; appreciate comments around noise

**Cameron also sets out what we've done and what we're doing**

**we're having another mtg with prov this fall about this [intersection]**

will support moving this forward but a TON of work to do  
 xxx and analysis begs, but feel comf moving this fwd  
 Mayor: certainly agree moving fwd, been here around for years  
 ev heard xxx; retail ... ; don't want to see ofc  
 glad Mark Ballard has left -- 100 drive in for a mtg for an hour and leave  
 know traffic is an issue; cmte with Min of Transportation, NV participates  
 have to have that intersection manned in late afternoon  
 devt there will not exacerbate but xxx ft of commercial; take ofc space into Ambleside; &&&  
 Mayor: cruel  
 NG: question my nbrs ask: what happened to the movie theatre?  
 RA: had tied in 752 with movie theatre; heard ...; decided now to separate the two  
 make sense and shrink {???) xxx, 752 stand on their own  
 NG: thank you  
**Motion passes unanimously**

## **BYLAWS**

**17. Proposed Park Dedication Bylaw No. 4794, 2014 (Whyte Lake Park)** ADOPTED

**18. Proposed OCP Bylaw No. 4360, 2004, Amdmt Bylaw No. 4783, 2014; and Proposed Zoning Bylaw No. 4662, 2010, Amendment Bylaw No. 4784, 2014 (Maison Seniors' Living, 825 Taylor Way and 707 Keith Road)**

*The proposed bylaws rec'd first reading at the Mar 31 reg Ccl mtg, were the subject of a PH held and closed on Apr 16, and rec'd second and third reading at the Apr 28 reg Ccl mtg. As the PH has closed Ccl is not permitted to receive any further submissions regarding the proposed bylaws.*

*{Cclr Sop opposed all three motions that follow}*

*If the proposed bylaws are adopted Council may consider proposed Devt Permit No. 12-084 for approval.*

*(first) proposed OCP Plan Bylaw be adopted AND (second) proposed "Zoning Amdmt Bylaw" be adopted.*

THEN

1. proposed Devt Permit 12-084 re proposed Maison Sr Living Residence at 825 TWay and 707 Keith Rd wch wd control the form and character of the proposed devt, be approved;
2. the Mayor and MCik be authorized to execute "no build" covenants with window blinds and tree protection covenants attached thereto, for 825 and 707 Keith Road (Maison Senior Living Residence).

**19. Proposed Official Community Plan Bylaw No. 4360, 2004, Amendment Bylaw No. 4771, 2014; and Proposed Zoning Bylaw No. 4662, 2010, Amendment Bylaw No. 4772, 2014 (Coach Houses)**

Sop: what guarantees are you going to give?

Sokol: PH is closed so cannot add any info at this time; part of the PH and staff report you have the ..... we'll come back to Ccl wrt the process

Sop: thank you

Mayor: in the interests of mercy, can we move forward? read all four

*{nope; done individually}*

MOTIONS: Proposed "OCP Amdmt Bylaw No. 4771, 2014" be read a second and third time. CARRIED

Proposed "Zoning Amdmt Bylaw No. 4772, 2014" be read second and third time. Cclr Sop opposed

**MUNICIPAL GOVT**

So, now we know why the two addl sp mtgs.

There is considerable opposition to **increasing the civic term** from three years to **FOUR YEARS**.

It appears therefore that Ccl pushed consideration of this critical important change to these two morning mtgs after the last scheduled ccl mtg before the summer break -- less likely public wd come/comment?

The first time that had come to the UBCM, it failed. It passed at the last UBCM and the prov took steps to enable it.

The more frequent elections, the more often the ppl have a say. With four years, the fear is that politicians and developers will do pretty well whatever they want for three years and then just have to be careful and listen to the public for the year before the election.

More on this coming to you this fall.

How did it happen?

Can it be undone?

UBCM is meeting in Sept.

Stay tuned.

## + Canada Tourism -- Beautiful Canada

[video 3 min 19 sec; <https://www.youtube.com/watch?v=aE43SG5Q7DA&feature=youtu.be>] -- Published on May 8, 2012 Canadian society is often depicted as being "very progressive, diverse, and multicultural". Canada's culture draws influences from its broad range of constituent nationalities, and policies that promote multiculturalism are constitutionally protected. Historically, Canada has been influenced by British, French, and aboriginal cultures and traditions. Through their language, art, and music, aboriginal peoples continue to influence the Cdn identity. Canada's official national sports are ice hockey and lacrosse. Hockey is a national pastime and the most popular spectator sport in the country. It is also the sport most played by Canadians. Canada is one of the most beautiful countries in the world with its natural beauty to the north, and beautiful cities.

## === ROYALWATCH === and Happy Birthday to little Prince George: one year old July 22!

👑 Prince Andrew came to watch Eugenie Bouchard play (final) at Wimbledon. After all, she and her twin are named after his two girls: Eugenie and Beatrice. And her brother was named William. Heard there was an Irish grandmother. Great to learn there are monarchists in Quebec -- maybe the country will hold together after all. Good news. In any case, Quebec has always been a monarchy -- the French Revolution (1789) was after New France became part of Canada (1763).

*...In Australia, Kate mentioned he was obsessed with wombats after receiving a cuddly toy and how he liked to watch the boats," Victoria said.*

"However, as they did for their wedding, Wills and Kate have encouraged people to give donations to charity instead."

We have a constitutional monarchy and are part of the Commonwealth family. We are open and welcoming. Join us in continuing to shape this country. Respect our traditions and values -- you are free to advocate changes. Pls do it from within by persuading others, IOW, the normal legal channels, collegially. ## === IN MEMORIAM === in memory of Robin Williams

Robin Williams, who died this week, was an Episcopalian, the U.S. branch of the Anglican Church. In his memory we are reprinting the list he made of the top . . .

## 10 Reasons to be an Episcopalian:

10. No snake handling.
9. You can believe in dinosaurs.
8. Male and female God created them; male and female we ordain them.
7. You don't have to check your brains at the door.
6. Pew aerobics.
5. Church year is colour-coded.
4. Free wine on Sunday.
3. All of the pageantry -- none of the guilt.

2. You don't have to know how to swim to get baptized.

And the Number One reason to be an Episcopalian:

1. No matter what you believe, there's bound to be at least one other Episcopalian who agrees with you.

### === OCEANWATCH ===

#### World Must Act Within 5 Years to Save Oceans From Pollution and Overfishing *Agence France-Presse*

Excerpt(s): "The world's oceans need saving from pollution and overfishing, and an independent panel warned on Tuesday that urgent action was needed within five years."

...The Global Ocean Commission said cutting down on single-use plastics products, restricting fishing on the high seas, and establishing binding regulations for offshore oil and gas exploration are key parts of the rescue plan....

...“The ocean provides 50 per cent of our oxygen and fixes 25 per cent of global carbon emissions. Our food chain begins in that 70 per cent of the planet,” said Jose Maria Figueres, co-chair of the commission and a former president of Costa Rica.

“Unless we turn the tide on ocean decline within five years, the international community should consider turning the high seas into an off-limits regeneration zone until its condition is restored.”

The plan called for an immediate cap on government subsidies for fishing on the high seas, and an end to them within five years....

...“About 60 per cent of such subsidies directly encourage unsustainable practices, and without them, high seas fisheries would not be financially viable,” said the report.

The high seas are the waters that fall beyond the national jurisdiction of countries, making up 64 percent of the ocean's total surface area and half the biological productivity of the entire ocean, according to the report.

### === FACTWATCH === Palestinians (including Hamas) and Likud

#### Some Facts usually left out (not reported and often misrepresented and denied)

They DO, re willing to, recognize Israel! Arafat recognized Israel in 1988, the 22-mbr Arab League did in 2002; Hamas sent a written offer in 2008. Note they even accepted the 1967 borders, wch reduced Palestine to 22% (from UN 45%).

Kucinich researched the translation of wiping from the map and it was meant akin to the Soviet Union no longer appearing on a map. More background later.

{They do not accept Israel as a theocratic state, a Jewish State (now being demanded by Netanyahu); Palestinian govt is secular. They agree with a shared Jerusalem as envisioned by the UN.}

The highly respected (former) President Peres was replaced by Prez Rivlin on July 24. He does NOT agree with two states.

#### LIKUD PLATFORM:

a. “The Jordan river will be the permanent eastern border of the State of Israel.”

b. “Jerusalem is the eternal, united capital of the State of Israel and only of Israel. The government will flatly reject Palestinian proposals to divide Jerusalem” [Palestinians have agreed to share Jerusalem with Israel as a joint capital.]

c. “The Govt of Israel flatly rejects the establishment of a Palestinian Arab state west of the Jordan river.”

d. “The Jewish communities in Judea, Samaria, and Gaza are the realization of Zionist values. Settlement of the land is a clear expression of the unassailable right of the Jewish people to the Land of Israel and constitutes an important asset in the defense of the vital interests of the State of Israel. The Likud will continue to strengthen and develop these communities and will prevent their uprooting.”

### === IRAQWATCH === Sunnis and Yazidis

> **Radical Sunnis** (killing other Muslims as well; shades of Europe's Catholic Protestant wars)

"The radical Sunni Muslim organisation that conquered almost half of Iraq in a whirlwind week at the beginning of June has changed its name. Before, it was **ISIS, the Islamic State in Iraq and al-Sham (the old Ottoman province that used to include Syria, Lebanon, Jordan, and Israel)**. But now it wishes to be known simply as the "Islamic State" – for there can only be one such state, and it should include everywhere that Muslims have ever ruled."

> **YAZIDIS**

+ from: [http://en.wikipedia.org/wiki/Yazidi#cite\\_note-Guardian2007-14](http://en.wikipedia.org/wiki/Yazidi#cite_note-Guardian2007-14)

The Yazidi are mostly a Kurdish-speaking ethnoreligious group who practice a syncretic religion that combines Shia and Sufi Islam with indigenous regional folk traditions. These traditions include elements shared with the mystic, Christian, and Mandaean communities of the Near East, as well as with more ancient Gnostic, Marcionite, Zoroastrian and early Mesopotamian religions....

... According to the Yazidi calendar, April 2012 marked the beginning of their year 6,762 (thereby year 1 would have been in 4,750 BC in the Gregorian calendar)....

... Yazidism is not an offshoot of another religion (such as Christianity or Islam), but shows influence from the many religions of the Middle East. Core Yazidi cosmology has a pre-Zoroastrian Iranian origin, but Yazidism also includes elements of ancient nature-worship, as well as influences from Christianity, Gnosticism, Zoroastrianism, Islam and Judaism. The heptad of angels are God's emanations which are formed of the light of God....

... Yazidi society is hierarchical. The secular leader is a hereditary emir or prince, whereas a chief sheikh heads the religious hierarchy. The Yazidi are strictly endogamous; members of the three Yazidi castes, the murids, sheikhs and pirs, marry only within their group, marriage outside the caste is considered a sin punishable by death to restore lost honour.

The current hereditary emir of the world's Yazidi is Prince Tahseen Said.

The current religious leader of the Yazidi, the Baba Sheikh, is Khurto Hajji Ismail.

... Too much contact with non-Yazidis is also considered polluting. In the past, Yazidis avoided military service which would have led them to live among Muslims, and were forbidden to share such items as cups or razors with outsiders....  
 ... Yazidis refrain from wearing the colour blue (or possibly green...). The origins of this prohibition are unknown, but may either be because blue represents Noah's flood, or it was possibly the colour worn by a conquering king sometime in the past. Alternatively, the prohibition may arise from their veneration of the Peacock Angel and an unwillingness to usurp His colour....

... The tale of the Yazidis' origin found in the Black Book gives them a distinctive ancestry and expresses their feeling of difference from other races. Before the roles of the sexes were determined, Adam and Eve quarreled about which of them provided the creative element in the begetting of children. Each stored their seed in a jar which was then sealed. When Eve's was opened it was full of insects and other unpleasant creatures, but inside Adam's jar was a beautiful boychild. This lovely child, known as son of Jar grew up to marry a houri and became the ancestor of the Yazidis. Therefore, the Yazidi are regarded as descending from Adam alone, while other humans are descendants of both Adam and Eve.[55]

+ <http://www.independent.co.uk/news/world/middle-east/who-are-the-yazidis-9662457.html>

... The Yazidis are a mainly Kurdish-speaking religious group who for centuries have lived in the northern mountains of Iraq....

The Yazidi religion is a minority religion, and is a closed set: it is not possible for a person to convert to the religion; a **person must be born into it...**

... In truth, the ancient Yazidi religion has elements of both Christianity and Islam at its roots, while it is also linked to one of the world's oldest monotheistic – the belief in one god – religions, called Zoroastrianism.

The Yazidis believe in one god, though they worship seven other "angels" or "spirits", the most important of which is Malak Taus, or Tausi Melek, whom Yazidis worship five times a day.

This figure is said to be the Yazidi god's favourite, and is supposed to act as a mediator between god and man. The figure's name is also known in Arabic as "Shaytan", meaning devil, supposedly because of the closeness of the pronunciation of Malak Taus's name in Arabic.

### === DISAPPEARING CHRISTIANS ===

... There were still about 60,000 Christians in Mosul when the United States and its sidekicks invaded Iraq eleven years ago. By last year, it was down to 30,000. Only two months after the arrival of the ISIS extremists, there are none. Most have fled to Kurdistan with nothing more than the clothes on their backs. They are not going back, and if they can, they will leave the Middle East entirely.

What has changed? For many centuries, the Christian minority of Arabs lived in relative peace and prosperity under Muslim rule. In the early 20th century, they were in the forefront of the nationalist and literary renaissance in the Arab world. But in the past decade, about a quarter of the Arab world's 12 million Christians have emigrated, and the flow is increasing every year...

#### British phrases

**No one can be as calculatedly rude as the British, which amazes Americans, who do not understand studied insult and can only offer abuse as a substitute.** *Paul Gallico*, quoted in *The New York Times* (Jan. 14, 1962)

**I regard England as my wife and America as my mistress.** *Cedric Hardwicke*, quoted in *Cleveland Amory & Eal Blackwell, Celebrity Register: An Irreverent Compendium* (1963)

**We have really everything in common with America nowadays, except, of course, language.** *Oscar Wilde*, in *The Canterbury Ghost* (1887)

#### QUOTE NOTE:

This is the way the quotation is typically presented, but it originally appeared in the narrator's description of Mrs. Otis, the American-born wife of Hiram B. Chase, an American Minister who purchased Canterville Chase, an English property reputed to be haunted. The full passage is: "Indeed, in many respects, she was quite English, and was an excellent example of the fact that we have really everything in common with America nowadays, except, of course, language." A similar observation ("England and America are two countries separated by the same language") was attributed without citation to George Bernard Shaw in a *Reader's Digest* issue (Nov. 1942), but there is no evidence that Shaw ever wrote or said such a thing.

~ 10am - noon ~ **Saturday August 23** with tourguides: Holly Sovdi & Anthony Norfolk

\$10 HVS mbrs; \$15 non-mbrs. For further info and to purchase tickets see [Eventbrite](#)

The West End contains a mixture of distinctive building styles representing successive eras of growth and change. One of the directions from the West End Cmnty Plan calls for the creation of a 'heritage stroll'.

In support of this direction, Heritage Vancouver is conducting a walking tour along Cardero Street in the West End. Join **Holly Sovdi**, City Planner for the West End, and heritage expert **Anthony Norfolk** to explore the dynamic mix of heritage styles in this area.

The tour will explore opportunities to realize Cardero Street between Robson and Davie Streets as the West End "heritage stroll", recognizing the area's architectural and historically significant mix of buildings and mature street trees.

Please join us after the tour to continue the discussions over lunch at the historic **Sylvia Hotel** (not included in ticket price, but please let us know at [info@heritagevancouver.org](mailto:info@heritagevancouver.org) if you plan to go for lunch so we can make reservations). Any remaining tickets can be purchased at the event 15 minutes before the tour begins.

A Delicious Pairing of Coffee and History **August 17th**

DOORS AND COFFEE SERVICE 8:30 – 9am; PROGRAM/COFFEE-TASTING STARTS 9am

WALK STARTS AT 9:30am JJ BEAN BIDWELL, 1209 BIDWELL ST **SOLD OUT- No walk ups please**

Join us at the newest JJ Bean location on Bidwell and Davie, the site of the much-fabled and historic Maxine's Beauty School. The morning includes JJ Bean coffee and a muffin, a bag of JJ Bean coffee to take home, and a coffee tasting and talk about the history of JJ Bean and their newest space led by founder and owner John Neate. John Atkin will then lead a walk in the West End that starts with the history of Maxine's.

Maxine's Beauty School has a colourful and storied history. Excerpt from the Vancouver Sun (December 2009):

"The building's original owner Madame Maxine ran a beauty school and boarding house for young women. But legend has it when times got tough in the Great Depression the lower floor was converted to a brothel.

Even taller tales of secret tunnels have circulated for decades. One tunnel connected Maxine's with English Bay, an exit used by rum-runners who shipped hooch to the U.S. during the Prohibition years.

According to the book *The Unknown City*, a second tunnel connected the brothel with nearby Rogers Mansion (now the Macaroni Grill) to allow Rogers Sugar magnate B.T. Rogers private access to his favourite girls. That Rogers died in 1918, years before the Depression and the bawdy house conversion has done little to quash the legend. Mrs. Rogers lived at Rogers Mansion until 1935, but no one has suggested that she used the tunnel to Maxine's."

# QUOTATIONS THOUGHTS PUNS

A philosopher is a blind man in a dark room looking for a black cat which isn't there. A theologian is the one who finds it.  
 -- H L Mencken, American journalist, critic, and essayist (1880 - 1956)

**If liberty means anything at all, it means the right to tell people what they do not want to hear.**  
 -- George Orwell, English writer (1903 - 1950)

Without intending it, I contrive to behave very ill to everybody, and am very sorry for it. — Lord Byron, June 19, 1814

**Education is a progressive discovery of our own ignorance.** -- William James Durant, American historian (1885 - 1981)  
 Journalism is publishing what someone doesn't want us to know; the rest is propaganda.  
 -- Horacio Verbitsky, an Argentine investigative journalist (b 1942)

**One forges one's style on the terrible anvil of daily deadlines.** -- Emile Zola, French writer (1840 - 1902)  
 I have one share in corporate Earth, and I am nervous about the management. -- E B White, American writer (1899 - 1985)

**As scarce as truth is, the supply has always been in excess of the demand.** -- Josh Billings, American humorist (1818 - 1885)

**You cannot shake hands with a clenched fist.** --Indira Gandhi, fourth Prime Minister of India (1917 - 1984)

**"And what is there to life if a man cannot hear the lonely cry of a whippoorwill or the arguments of the frogs around a pond at night?"** -- **Chief Seattle, 1854**

Even if you're on the right track, you'll get run over if you just sit there. -- Will Rogers, American humorist (1879 - 1935)

The bicycle is the most civilized conveyance known to man. Other forms of transport grow daily more nightmarish. Only the bicycle remains pure in heart.  
 -- Iris Murdoch, English writer (1919 - 1999)

**We do not see things as they are. We see things as we are.** -- **The Talmud**  
 So I accept these awards on behalf of the cake bakers and all of those other women who can do some things quite as important, if not more important, than flying, as well as in the name of women flying today.

-- Amelia Earhart, American aviation pioneer (24 July 1897 - 1937)

The power to define the situation is the ultimate power. -- Jerry Rubin, American activist and author (1938 - 1994)

Success isn't about how much money you make, it's about the difference you make in people's lives. -- Michelle Obama

God gave you a gift of 86,400 seconds today. Have you used one to say "thank you"? -- William A. Ward, American writer (1921 - 1994)

**To have a right to do a thing is not at all the same as to be right in doing it.** -- G K Chesterton, English writer (1874 - 1936)

If you look at zero you see nothing; but look through it and you will see the world.

-- Robert M Kaplan, American scientist, author of The Nothing that Is: A Natural History of Zero (published by OUP, USA 2000)

*Those to whom evil is done*

*Do evil in return.* -- *W.H. Auden, English poet ( 1907 - 1973)*

There's an important difference between giving up and letting go. -- Jessica Hatchigan, [current] American writer

You can't sing with a mouthful of garbanzo beans, so hummus a tune.  
 As the carburettor chuckled to the air filter, 'I guess the choke's on me!'  
 Digest is morbid humour.

The woodcutter stretched every morning before starting work. He was a limberjack.

A new computer shop has just opened up. It is located on Boot Drive.

I'm reading a book about mazes, I got lost in it.

The sledder who got injured realized that his wounds were more than he tobogganed for.

The home for rich squirrels is The Nutcracker Suite.

A mosquito is the oldest known skin-diver.

The new jail tunnel was a runaway success.

**What's the best way to serve a stack of pancakes?**

**Syruptitiously.**

What do you get when you cross a snake and a plane?

A Boeing Constrictor.
